2015 GRADUATE COURSEWORK PROGRAMS
Welcome To ANU

Graduate study is about tailoring your education and skills to suit your needs and equipping you for a successful career. Choosing the right graduate course is a big decision. It is important to have all the right information to help you make an informed choice.

At ANU, we are committed to helping students achieve their full potential. Whether you plan to focus on coursework, research, or a combination of both, we provide a wide range of programs with a high staff-to-student ratio to ensure you get the most out of your degree.

As Australia's national university, ANU has forged close links with government, business and research institutions in Australia and abroad. Our scholars and alumni have shaped government policy and public debate and have made a significant contribution to the economic, cultural and social prosperity of the nation.

Through our pre-eminent expertise in international relations, language, culture and strategic studies, ANU is playing a leading role in shaping the future of the Asia–Pacific region. Our links with leading universities in Asia, Europe, the United Kingdom, and the United States provide opportunities for collaboration and exchange.

ANU is an intimate, welcoming campus located within walking distance of Canberra's city centre, restaurants and cultural centres.

I invite you to explore the 2015 Graduate Coursework Programs guide to find out more about what ANU has to offer. I look forward to welcoming you to campus in 2015.

Professor Ian Young AO
Vice-Chancellor and President

“I chose ANU because of the wide range of courses available in earth sciences and the flexibility of the programs offered by ANU. Within the Master of Science (Environmental Science) I have been able to specialise in the study of natural hazards from a geologic perspective.”

Simon Walker
Current MSc(EnvSc) student (pictured here)
ANU was established in 1946 and has evolved into one of the world’s leading centres of education, research and leadership.

As Australia’s national university, it sets the standard in research, teaching and community engagement on issues of national and international significance. Our students learn and study alongside distinguished academics, 80 per cent of which hold a PhD, and their time at ANU is enhanced by world class resources which provide them with opportunities and a transformative experience. The University is the only Australian member of the International Alliance of Research Universities (IARU). ANU is closely aligned with other Australian national institutions, industry, research organisations, foreign ministries, government offices and Parliament.

ANU topped the nation in the latest Excellence in Research for Australia assessment. The University was the only institution in the country rated ‘well above world standard’ in Anthropology, Criminology, Organic Chemistry and Research Studies in Human Society. In all, 89 per cent of disciplines assessed were rated either in this category or the ‘above world standard’ category. Research fields that received the maximum rating include Law, ICT, Biology, Humanities and Social Sciences, Environmental Sciences, Language, Economics, Communication and Culture, Archaeology, Earth Sciences, Mathematics, Physics and Philosophy.

With advantages such the best student to academic staff ratio in Australia, an internationally diverse campus, 94 per cent of research from ANU scholars rated above world standard and its legacy of intellectual leadership, position of national prominence and global reach, ANU provides a memorable, rewarding and valuable experience for each and every student.
ANU is ranked 1 in Australia and number 27 in the world (QS World University Rankings, 2013)

ANU hosts Australia’s largest university based physics institution

ANU has produced 5 Nobel Prize Winners

ANU is ranked 1 in Australia and number 20 in the world for producing the most employable graduates (NYT Global Employability University Survey 2013)

ANU Mathematics is number 1 in Australia (QS World University Rankings, 2013)

ANU Earth and Marine Science is number 1 in Australia and number 13 in the world (QS World University Rankings, 2013)

ANU has produced 2 Australian Prime Ministers

22 out of the 25 disciplines that ANU offer are ranked top 50 (2013 QS World University Ranking by Subject)

ANU is the seventh most International University in the world (Times Higher Education International Outlook indicator, 2013-2014)

Ranked number two in Australia and number 26 in the world for social sciences (2013-2014 Times Higher Education World University Rankings)
ANU has a beautiful landscaped campus offering all the convenience of a small town. The vibrant community includes medical services, a gym, cafés, restaurants, art galleries, four sporting fields and bookshops. There are more than 50 student clubs and societies.

The modern learning facilities on campus include high-tech laboratories and lecture theatres. There is wireless connection across campus, virtual learning spaces, online collaboration tools and access to a wealth of e-resources. The Information Commons include a collection of computer labs within the ANU Libraries, residences, and buildings across campus. The 1500+ computers provide students and staff with access to Internet, wireless, software, and are connected to a shared printing system.

In addition the University has developed state-of-the-art collaboration spaces to support new and emerging teaching methods. The flexible learning environment enables collaboration for individual and group study sessions, and includes a learning laboratory and laptop benches. There are also breakout spaces with occasional furniture, generous fixed lounge seating with incorporated power outlets and student networking space including kitchenette.

New to ANU is a Microsoft Tech Lounge, intended to be a space for students to interact with new technologies, to study, research, relax and play. The lounge is designed as a funky common room — with computer hardware and software including Xbox 360s with Kinect, tablets, laptops, and desktop computers.

ANU offers a flexible-delivery learning model. An integrated visual and audio Digital Lecture Delivery system means within hours of a lecture being given, recordings of the talk and slides are uploaded to the student online facility where they are available for students to download in a variety of formats including MP3, MPEG4 and Podcasts.

ANU has seven academic colleges which are made up of research and teaching centres and schools that work across broad discipline areas. The colleges link the latest research to teaching at undergraduate, graduate and higher degree by research levels — enhancing the learning experience of all students and the University’s education programs.

In addition to the seven colleges, ANU has established a college dedicated to teaching and researching national security issues and developments – the National Security College. ANU is also home to the Australian National Institute of Public Policy (ANIPP) in the Crawford School of Public Policy. Delivering the University’s major strategic commitment to public policy formulation and debate, ANIPP, Crawford School, leads engagement in policy impact through research-led education relevant to major issues confronting government, business and society.

For more information about student life on campus see page 55.
The ANU College of Arts and Social Sciences (CASS) is recognised globally for its academic excellence in the creative arts, humanities and social sciences. In Australia, there is simply no better place to study the humanities, social sciences and creative arts*.

We are proud of our academic leadership, but also of our distinctive multidisciplinary research and teaching culture, our commitment to generating ideas, challenging stereotypes, and informing and influencing the key cultural, social and political debates across the country, and beyond.

CASS has a vibrant intellectual culture. Last year alone we hosted 136 conferences and seminars, and 179 public lectures, conferences and exhibitions. Importantly at CASS you can connect with global scholars in your field through our visiting fellows programs which welcomes over 100 visiting academics each year.

Within these broad areas we offer graduate programs in a diverse range of disciplines. This guide provides information for over 20 discipline areas which you can choose from.

I look forward to welcoming you to the College.

Professor Toni Makkai
Dean and Director
ANU College of Arts and Social Sciences

*QS World University Rankings by Subject 2014

The ANU College of Asia and the Pacific is the world’s leading centre for research and teaching on the region, housing a remarkable assembly of scholars and resources. As one of our students, you’ll be learning from our 200 regional specialists, recognised worldwide as leaders in their field.

This regional expertise is matched by our disciplinary strengths, thanks to our enviable international standing in fields of teaching and research as diverse as public policy, politics, economics, international relations, anthropology, archaeology, climate change and environmental management, development, strategic studies, languages and linguistics.

Our leadership and influence extends beyond teaching, to shaping policy and public opinion in Australia and beyond. On any given day, you are likely to see a diplomatic car parked in front of the College’s buildings while dignitaries consult a world expert on the Australian economy or defence policy, the Indonesian election or the Chinese leadership.

I look forward to seeing you also at the ANU College of Asia and the Pacific.

Professor Andrew Walker
Dean (Acting)
ANU College of Asia and the Pacific

ANU College of Business & Economics

The ANU College of Business and Economics is one of Australia’s leading centres of research and education in the closely-related fields of business and economics. It has a tradition of innovation in education which has seen it at the forefront of the development of academic study in business disciplines. It continually adapts to advances in research and changes in the business world and the workplace.

Our lecturers bring both first-class research pedigree and significant business experience to the classroom, providing an education that is both informed by the latest thinking and tailored to the needs of the professional world.

Our graduates have built successful careers in the associated professions all around the world. Many of our alumni have gone on to become significant figures in public life – in politics, public service, business and academia.

Professor Shirley Leitch
BA, MA (Hons), PhD (Auckland)
Acting Dean and Director
ANU College of Business and Economics

ANU College of Engineering & Computer Science

The College is committed to improving the world we live in by advancing and transferring knowledge through research and teaching; providing our students with the best educational and research training experience so that they are equipped with a broad knowledge and understanding of other disciplines, communication and leadership skills; and raising community awareness of the important role of engineers and computer scientists in driving critical thinking that helps to form public policy and decision-making.

Our work can only be achieved because we have built up an extensive network of international collaboration with research institutions and industries in Europe, the Asia Pacific and the USA for research and teaching activities.

Examples include partnerships with research institutions in China; companies in Germany on researching and developing new solar cell technologies; with US companies like Sun Microsystems, Gaussian and Intel on creating new high performance computer systems and hardware; and closer to home with companies like TransGrid on complex systems for electricity grids, and Defence in robotics and autonomous unmanned vehicles.

As consumers, we are often aware of the results of research and teaching – think ‘detecting cancer’, ‘faster, cheaper, smaller communications’, ‘cheaper, more efficient, less polluting energy’ – but where does it all start?

It starts with some of the best minds in the country that think about the possibilities and help to turn these into probabilities. I hope you can join us.

Professor John Hosking
Dean and Director
ANU College of Engineering and Computer Science
The ANU College of Law is the national law school and is proudly part of one of Australia’s top-ranked universities, located in the heart of Canberra, Australia’s national capital. This provides us with unique opportunities to connect with the work of the Parliament of Australia, the High Court of Australia, the departments and agencies of the Federal Government, as well as the local ACT law-making institutions – the Legislative Assembly and the ACT courts.

Our graduate teaching programs span national and international contexts. We have widely-acknowledged strengths in the fields of international law, public law, environmental law and migration law, but our courses cover many other areas that are critical to understanding the role of law, and the rule of law, in the modern global context.

Our teaching staff are leaders in their fields. They excel at teaching and at research, and they infuse their teaching with the insights from their research. Our programs are offered in a variety of formats, from small group intensive format through to the very latest in online interactive technology.

Underlying all of our teaching – and our research – is a belief that the discipline of law offers a unique perspective on social, political and economic issues, as well as insights into fundamental and abiding questions about justice, fairness and the exercise of power in an increasingly globalised society.

At the ANU College of Law we encourage our students to look beyond ‘the law in the books’ to consider the impact – both good and bad – of the law in practice. We believe that the purpose of studying, researching and practicing law is not simply to know what the law is, but to understand why it operates as it does, and how it can be improved.

I look forward to welcoming you as a member of our learning community.

Professor Stephen Bottomley
Dean, ANU College of Law

cmbe-cpms.anu.edu.au/study
what can I study?
What can I study?

“I chose my degree because it offered me the opportunity to... take an interdisciplinary and comparative approach to my research, with the support of internationally renowned scholars from across the ANU.”

Laura Parker
Current PhD student (pictured here)
Graduate
A graduate (or postgraduate) student is available to anyone who has already completed a bachelor (or undergraduate) degree and enrols in further study.

Graduate Coursework
Graduate coursework generally results in the awarding of a graduate certificate, a graduate diploma or a Master degree. The major component of a graduate coursework degree program is attendance at lectures and tutorials, examinations, and the submission of assessment items, such as essays and assignments.

Some graduate coursework programs may also involve a research component, where students work with the assistance of supervisors on a more substantial project. Admission to a graduate coursework program will usually require the candidate to have completed a bachelor (or undergraduate) degree, with at least a credit grade average (65 per cent). Some graduate coursework programs may require applicants to have a Bachelor degree or graduate certificate in a cognate discipline. These are listed in the coursework programs description section starting on page 14 or visit programsandcourses.anu.edu.au

College structure
The academic structure of ANU is organised into seven discipline-focused academic colleges for education and research. Within the college framework, research and teaching centres are grouped into faculties, research schools, Institutes and centres.

Degree programs
One hundred and twenty two programs in the graduate coursework table on the following pages are colour coded to indicate which of the academic colleges administer them.

- ANU College of Arts and Social Sciences
- ANU College of Asia and the Pacific
- ANU College of Business and Economics
- ANU College of Engineering and Computer Science
- ANU College of Law
- ANU College of Medicine, Biology and Environment
- ANU College of Physical and Mathematical Sciences

Full details on each of these degree programs can be found by visiting programsandcourses.anu.edu.au or by contacting the academic colleges.

Duration
A two-year, full-time degree program will usually comprise four semesters of study. A number of courses within degree programs are offered in ‘non-standard’ sessions – full details on course offerings can be found within each degree program listing at programsandcourses@anu.edu.au

Part-time study is generally represented as double the duration of full-time study.

Semester intake
Most degree programs have two intakes per year and can be started in either Semester 1 (late February) or Semester 2 (mid-July). Those degree programs that have only one intake per year will list Semester 1 only or Semester 2 only.

Some programs may start in non standard sessions (ie Summer, Winter)–please check details at programsandcourses.anu.edu.au
Graduate certificate and graduate diploma awards are available as exit options in circumstances where the two-year Master degree cannot be completed. Program specific entry requirements can be found at programsandcourses.anu.edu.au.

You have an undergraduate degree in an unrelated field
You have an undergraduate degree in a related field
Up to six months’ credit (24 units)

You have an undergraduate degree with honours in a related field
OR graduate qualification in a related field
Up to 12 months’ credit (48 units)

Two-year globally-recognised Master degree

ANU MASTER DEGREES FROM 2015
Coursework Program Descriptions

Accounting

- Master of Accounting
  
  Full time: 2 years
  Semester intake: 1 or 2
  Program code: 7414XMACCT
  Indicative annual fee: $A27,283
  Program overview: The Master of Accounting develops accounting skills and the ability to undertake independent research and critical thinking. For students with limited or no prior accounting training, the program offers conversion courses that allow them to meet the education entry requirements of the Australian professional accounting bodies. Students who need to complete additional courses to gain Australian accounting accreditation can also do this as part of the program. Students with prior accounting studies will take more advanced accounting courses, and have the opportunity to undertake more substantial research projects. The program is taught by research-active academic staff. Students are exposed to professional and scholarly academic accounting research, enhancing their academic and professional competence. With continuing high global demand for qualified accountants, graduates of the program have a wide range of career opportunities in accounting firms, government departments, banking and finance organisations, corporations and other related accounting fields.
  
  Admission requirements: A Bachelor degree with an average mark of at least 65 per cent.
  

- Graduate Diploma of Accounting
  
  Full time: 1 year
  Semester intake: 1 or 2
  Program code: 8401XGDACT
  Apply: uac.edu.au
  Indicative annual fee: $A27,283
  Program overview: The Graduate Diploma in Accounting is designed for students who wish to gain or extend their knowledge of accounting and related disciplines. Available courses address issues and topics of importance in accounting and business areas. The Diploma program is designed to articulate into a Master program for students who wish to continue their advanced studies. Students may be able to transfer to Master of Professional Accounting, Master of Accounting, or the Master of Commerce programs. The program is taught by research active academic staff. Students are exposed to professional and scholarly academic research in commerce, enhancing their academic and professional competence.
  

- Master of Professional Accounting
  
  Full time: 1.5 years
  Semester intake: 1 or 2
  Program code: 7413XMPACC
  Apply: uac.edu.au
  Indicative annual fee: $A27,283
  Program overview: The Master of Professional Accounting allows graduates to develop skills in accounting and the ability to analyse accounting-related issues. The program allows students with prior studies in cognate disciplines to specialise in accounting and meet the education entry requirements for the Australian accounting professional bodies. The program is taught by research active academic staff. Students are exposed to professional and scholarly accounting development and research. With continuing high global demand for qualified accountants, graduates of this program have a wide range of career opportunities in accounting firms, government departments, banking and finance organisations, corporations and other related accounting fields.
  
  Admission requirements: A Bachelor degree with an average mark of at least 65 per cent.
  

- Master of Actuarial Practice
  
  Full time: 2 years
  Semester intake: 1 or 2
  Program code: 7420XmAcTP
  Apply: uac.edu.au
  Indicative annual fee: $A27,283
  Program overview: This program is designed for students with an actuarial degree the opportunity to complete courses complementary to the Institute's Part II requirements, and to extend their study to an advanced level with a possible view to PhD study.

- Master of Actuarial Studies
  
  Full time: 2 years
  Semester intake: 1 or 2
  Program code: 7410XmAcTS
  Apply: uac.edu.au
  Indicative annual fee: $A27,283
  Program overview: This program is designed for students who want to extend their study to an advanced academic level with a view to possible PhD-level study or students with a good mathematical or statistical background but with limited actuarial knowledge seeking a ‘conversion’ option to develop actuarial skills that satisfy Part I and II requirements of the Actuaries Institute. Admission requirements: A Bachelor degree with an average mark of at least 65 per cent with at least one course in the field of mathematics that must cover calculus and linear algebra. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for up to 48 units (one year) of credit. Students with an actuarial degree the opportunity to complete courses complementary to the Institute's Part II requirements, and to extend their study to an advanced level with a possible view to PhD study.

Graduate Diploma of Finance and Actuarial Statistics
Full time: 1 year
Semester intake: 1 or 2
Program code: DFAS
Apply: uac.edu.au
Indicative annual fee: $A20,488
Program overview: The Graduate Diploma of Finance and Actuarial Statistics is designed for students who wish to develop a deep understanding of financial, actuarial or statistical principles and their application. It will develop analytical skills for interpreting and analysing financial, actuarial or statistical information. Students will gain insight into the Australian and international financial markets and learn the management skills to deal with organisations, teams and policy issues. The program allows students to apply their knowledge in the specialised areas of finance, actuarial studies or applied statistics. Those studying an actuarial specialisation can gain Part II exemption status for the Actuaries Institute.
Admissions requirements: A Bachelor degree with an average mark of at least 65 per cent.

Graduate Certificate of Finance and Actuarial Statistics
Full time: 1 semester
Semester intake: 1 or 2
Program code: CFAS
Apply: uac.edu.au
Indicative annual fee: $A13,641
Program overview: The Graduate Certificate of Finance and Actuarial Statistics is an introductory program designed for students wishing to gain a greater understanding of financial, actuarial or statistical principles and their application. Students select one of the following specialisations: Finance, Actuarial Studies, Actuarial Statistics or Statistics. The Actuarial Studies specialisation can help students gain Part II exemption status for the Actuaries Institute.
Admissions requirements: A Bachelor degree with an average mark of at least 65 per cent.

Anthropology

Master of Anthropology
Full time: 2 years
Semester intake: 1 or 2
Program code: MANTH
Apply: uac.edu.au
Indicative annual fee: $A20,815
Program overview: Pursue your passion for cross-cultural understanding around the world with a Master of Anthropology. And there's no better place for it than ANU. We are one of the world's leading centres for anthropological teaching and research, with more than 35 anthropologists working in the University. Your Master degree will draw on their world-renowned expertise in the anthropology of Australia, the Pacific and Asia, covering diverse topics in the areas of cultural, social medical, development and many other fields of anthropology.
Admission requirements: A Bachelor degree with an average mark of at least 65 per cent. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit.

Master of Anthropology (Advanced)
Full time: 2 years
Semester intake: 1 or 2
Program code: VANTH
Apply: uac.edu.au
Indicative annual fee: $A20,815
Program overview: Pursue your passion for cross-cultural understanding around the world with a Master of Anthropology. And there's no better place for it than ANU. We are one of the world's leading centres for anthropological teaching and research, with more than 35 anthropologists working in the University. Your Master degree will draw on their world-renowned expertise in the anthropology of Australia, the Pacific and Asia, covering diverse topics in the areas of cultural, social medical, development and many other fields of anthropology.
Admission requirements: A Bachelor degree with an average mark of at least 65 per cent. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit.

Master of Applied Anthropology and Participatory Development
Full time: 2 years
Semester intake: 1 or 2
Program code: MAAPD
Apply: uac.edu.au
Indicative annual fee: $A20,815
Program overview: If you're a development practitioner, or aspiring to be one, the Master of Applied Anthropology and Participatory Development (MAAPD) will give you the practical skills you need to make a difference, and also the theory to assess your impact. The MAAPD is a highly-regarded qualification taught by leading academics with development work experience in the field. The MAAPD offers five specialisations to choose from according to your passions: Conflict and development; Gender and development; Humanitarian action; Indigenous policy; Society and environment.
Career opportunities: The MAAPD will advance your career in development, policy, and program management in bilateral, multilateral and non-government organisations or as an independent consultant.
Admission requirements: A Bachelor degree with an average mark of at least 65 per cent. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit.

Master of Applied Anthropology and Participatory Development (Advanced)
Full time: 2 years
Semester intake: 1 or 2
Program code: VAAPD
Apply: uac.edu.au
Indicative annual fee: $A20,815
Program overview: If you're a development practitioner, or aspiring to be one, the Master of Applied Anthropology and Participatory Development (MAAPD) will give you the practical skills you need to make a difference, and also the theory to assess your impact. The MAAPD is a highly-regarded qualification taught by leading academics with development work experience in the field. The MAAPD offers five specialisations to choose from according to your passions: Conflict and development; Gender and development; Humanitarian action; Indigenous policy; Society and environment.

All applicants must meet the University’s English Language Admission Requirements for Students.
Full details: students.anu.edu.au/programs

2015 Graduate Coursework Programs 15
Career opportunities: The MAAPD will advance your career in development, policy, and program management in bilateral, multilateral and non-government organisations or as an independent consultant.

Admission requirements: By transfer from the Master of Applied Anthropology and Participatory Development, with a weighted average mark of at least 70 per cent in the first 72 units of course work attempted as well as the approval of an identified supervisor for the research project/thesis. If the total number of units attempted exceeds 72 in the same teaching period in which the 72nd unit is attempted, exactly 72 units will be used in the calculation of the weighted average mark with units from the course with the highest mark applied first followed by further units from courses in descending order of marks. Students will be awarded up to 72 units of course credit for completed courses listed in this Master (Advanced) degree.

Master of Biological Anthropology (Advanced)

Full time: 2 years
Semester intake: 1 or 2
Program code: MBIAN
Apply: uac.edu.au
Indicative annual fee: A$20,815
Program overview: What does it mean to be human? If you’re interested in the answer, you’ll love the Master of Biological Anthropology. This program not offered at any other Australian university equips you with the theory and skills required to study humans and non-human primates as varied and dynamically changing biological organisms. You will explore primate evolution, ecology, behaviour and conservation; human evolution, and behaviour; animal domestication; paleopathology and bioarchaeology. You can also choose from a range of electives including ancient health and medicine, forensic anthropology and archaeology, anthropological genetics and environmental disasters.

Admission requirements: By transfer from the Master of Biological Anthropology, with a weighted average mark of at least 70 per cent in the first 72 units of course work attempted as well as the approval of an identified supervisor for the research project/thesis. If the total number of units attempted exceeds 72 in the same teaching period in which the 72nd unit is attempted, exactly 72 units will be used in the calculation of the weighted average mark with units from the course with the highest mark applied first followed by further units from courses in descending order of marks. Students will be awarded up to 72 units of course credit for completed courses listed in this Master (Advanced) degree.

Master of Culture, Health and Medicine (Advanced)

Full time: 2 years
Semester intake: 1 or 2
Program code: mCHAm
Apply: uac.edu.au
Indicative annual fee: A$20,815
Program overview: Whether you’re a clinician or social scientist, teacher or aspiring global health worker, this program will help you understand the foundations of health, illness, and medical practice in a culturally diverse world, and give you the skills to bring about change. The Master of Culture, Health and Medicine (M-CHAM) is the only program of its kind in Australia. Drawing on anthropological and other social science perspectives and technical expertise in health related research and practice, it will provide you with a nuanced understanding of the nature of health, sickness, and healing in a local and global context. You will emerge with the skills to undertake social and cultural analysis of health policy and practices. This interdisciplinary program is taught by leading academics, clinicians, and global health practitioners from across the university. Five specialisations are available for you to choose from, according to your interests: Global health and development; Health and environment; Health and gender; Health and Indigenous Australian; Health policy and ethics.

Career opportunities: The M-CHAM will advance your career in health-related fields in development, policy and education, in government, non-government, and international organisations, and can lead to further PhD research.

Admission requirements: By transfer from the Master of Culture Health and Medicine, with a weighted average mark of at least 70 per cent in the first 72 units of course work attempted as well as the approval of an identified supervisor for the research project/thesis. If the total number of units attempted exceeds 72 in the same teaching period in which the 72nd unit is attempted, exactly 72 units will be used in the calculation of the weighted average mark with units from the course with the highest mark applied first followed by further units from courses in descending order of marks. Students will be awarded up to 72 units of course credit for completed courses listed in this Master (Advanced) degree.
Cognate disciplines: Anthropology, Biological Sciences, Education, Environmental Studies, Geography, History, International Relations, Law, Language and Literature, Medicine, Nursing, Occupational Therapy, Pharmacy, Politics, Psychology, Public Health, Philosophy, Physiotherapy, Social Work, Sociology

Archaeology

**Master of Archaeological Science**

**Full time:** 2 years  
**Semester intake:** 1 or 2  
**Program code:** MARSC  
**Apply:** uac.edu.au  
**Indicative annual fee:** A$20,815  
**Program overview:** Boost your credentials and your career with a Master of Archaeological Science at ANU. This unique degree offers you access to over 40 top ranked international archaeologists. Join them in the field or in our world class laboratories to hone your technical expertise and experience. Students can tailor the program to their own training objectives, through hands-on experience with a wide range of supervising specialists, materials and laboratory resources. Two specialisations are available to match your interests: Forensic archaeology and paleoanthropology, and Quaternary studies and palaeoenvironments.

**Career opportunities:** The Master of Archaeological Science can lead to a PhD, or advance your career in cultural and environmental resource management, heritage management, forensic science and materials science.

**Admission requirements:** By transfer from the Master of Archaeological Science, with a weighted average mark of at least 70 per cent in the first 72 units of course work attempted as well as the approval of an identified supervisor for the research project/thesis. If the total number of units attempted exceeds 72 in the same teaching period in which the 72nd unit is attempted, exactly 72 units will be used in the calculation of the weighted average mark with units from the course with the highest mark applied first followed by further units from courses in descending order of marks. Students will be awarded up to 72 units of course credit for completed courses listed in this Master (Advanced) degree.

**Cognate disciplines:** Archaeology, Botany, Earth, Environmental or Marine Sciences, Geography, Museum Studies and Heritage Studies, Material Sciences

Art History and Curatorial Studies

**Master of Art History and Curatorial Studies**

**Full time:** 2 years  
**Semester intake:** 1 or 2  
**Program code:** VAHCS  
**Apply:** uac.edu.au  
**Indicative annual fee:** A$20,815  
**Program overview:** Where better to study art history and curatorship than surrounded by Australia’s national cultural and collecting institutions? What’s more, where better to study Art History than in Australia’s premier practice-led research institution, the ANU School of Art. Here, you will study the history of art while surrounded by the making of art. At ANU you can take advantage of our strong connections to the National Gallery of Australia, the National Museum of Australia, the National Portrait Gallery, the National Library and the Australian War Memorial to participate in our renowned internship program. And like many of our graduates before you, you might even find yourself working there. Our Master of Art History and Curatorial Studies offers courses in Australian and Asian art; 19th-20th century Australian and European art and design; modernism and postmodernism; curatorial practice, all taught by our specialist art historians.

**Career opportunities:** A Master of Art History and Curatorial Studies will advance your career working in art galleries, museums and other cultural institutions; the arts, heritage and collections sectors; the commercial world of culture and art; and in teaching and education.

**Admission requirements:** By transfer from the Master of Art History and Curatorial Studies, with a weighted average mark of at least 70 per cent in the first 72 units of course work attempted as well as the approval of an identified supervisor for the research project/thesis. If the total number of units attempted exceeds 72 in the same teaching period in which the 72nd unit is attempted, exactly 72 units will be used in the calculation of the weighted average mark with units from the course with the highest mark applied first followed by further units from courses in descending order of marks. Students will be awarded up to 72 units of course credit for completed courses listed in this Master (Advanced) degree.

**Cognate disciplines:** Art History, Anthropology, Art Theory, Classics, Fine Arts, History, Museum Studies.

**Master of Archaeological Science (Advanced)**

**Full time:** 2 years  
**Semester intake:** 1 or 2  
**Program code:** VARSC  
**Apply:** uac.edu.au  
**Indicative annual fee:** A$20,815  
**Program overview:** Boost your credentials and your career with a Master of Archaeological Science at ANU. This unique degree offers you access to over 40 top ranked international archaeologists. Join them in the field or in our world class laboratories to hone your technical expertise and experience. Students can tailor the program to their own training objectives, through hands-on experience with a wide range of supervising specialists, materials and laboratory resources. Two specialisations are available to match your interests: Forensic archaeology and paleoanthropology and Quaternary studies and palaeoenvironments.

**Career opportunities:** The Master of Archaeological Science can lead to a PhD, or advance your career in cultural and environmental resource management, heritage management, forensic science and materials science.

**Admission requirements:** By transfer from the Master of Archaeological Science, with a weighted average mark of at least 70 per cent in the first 72 units of course work attempted as well as the approval of an identified supervisor for the research project/thesis. If the total number of units attempted exceeds 72 in the same teaching period in which the 72nd unit is attempted, exactly 72 units will be used in the calculation of the weighted average mark with units from the course with the highest mark applied first followed by further units from courses in descending order of marks. Students will be awarded up to 72 units of course credit for completed courses listed in this Master (Advanced) degree.

**Cognate disciplines:** Anthropology, Biological Sciences, Education, Environmental Studies, Geography, History, International Relations, Law, Language and Literature, Medicine, Nursing, Occupational Therapy, Pharmacy, Politics, Psychology, Public Health, Philosophy, Physiotherapy, Social Work, Sociology.
What can I study?

**Arts and Social Sciences**

- **Graduate Certificate of Arts**
  - Full time: 1 semester
  - Semester intake: First only
  - Program code: CARTS
  - Apply: uac.edu.au
  - Indicative annual fee: A$10,407
  - Program overview: By studying the Graduate Certificate of Arts you will gain a graduate level understanding in the humanities, social sciences, languages, visual arts, or music. The Graduate Certificate of Arts provides a foundation for further graduate study including some Master programs.
  - Admission requirements: A Bachelor degree.

**Astronomy and Astrophysics**

- **Master of Astronomy and Astrophysics (Advanced)**
  - Full time: 2 years
  - Semester intake: 1 or 2
  - Program code: VASTP
  - Apply: uac.edu.au
  - Indicative annual fee: A$24,782
  - Program overview: The Master of Astronomy and Astrophysics (Advanced) is a full-time two year program based upon 50 per cent coursework and 50 per cent research project. The coursework component may be tailored to a student’s needs, and can include astrophysical techniques, astrophysical computing, planetary science, stellar astrophysics, galaxies, and cosmology. Many courses contain research or hands-on components that develop skills and knowledge in the latest advances in astronomy and astrophysics. The research project provides the opportunity to enhance and develop detailed knowledge and skills in a specific area of astronomy or astrophysics. The research component may include the acquisition and analysis of telescope data, the development of theoretical models, or the development and testing of new astronomical instrumentation.
  - Admission requirements: A Bachelor degree with an average mark of at least 70 per cent and at least eight courses in cognate disciplines, and the approval of an identified supervisor for the research project/thesis. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 48 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit. Students who do not achieve a minimum 70 per cent average mark in the first 48 units of coursework or have the approval of the supervisor for the research project will be transferred to the Master of Biological Sciences program.
  - Cognate disciplines: Computer Science, Earth and Marine Sciences, Mathematics, Physics.

**Biology**

- **Master of Biological Sciences**
  - Full time: 2 years
  - Semester intake: 1 or 2
  - Program code: MBIOS
  - Apply: uac.edu.au
  - Indicative annual fee: A$24,782
  - Program overview: Are you interested in the range of organisms that make up our green plane? Do you want to unlock the secrets of nature? The ANU Master of Biological Sciences is a flexible coursework program which can be tailored to suit a student’s specific educational goals. Our program allows students to specialise in a particular area of biology such as biomedical sciences, ecology and evolution, genetics, plant sciences and biochemistry. Alternatively, students can utilise the program to provide a broad overview of biological sciences today. Our practical classes refresh traditional techniques while developing skills and knowledge in new cutting edge techniques.
  - Admission requirements: A Bachelor degree with an average mark of at least 70 per cent and at least eight courses in cognate disciplines. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit.
  - Cognate disciplines: Biology, Biomedical Sciences, Biochemistry, Genetics, Evolution, Ecology, Plant Sciences.

- **Master of Biological Sciences (Advanced)**
  - Full time: 2 years
  - Semester intake: 1 or 2
  - Program code: VB IOS
  - Apply: uac.edu.au
  - Indicative annual fee: A$24,782
  - Program overview: Do you want to make a career of the fascinating living world around us? The ANU Master of Biological Sciences (Advanced) is a flexible program that can be tailored to a student’s needs. Our program allows students to specialise in a particular area of biology such as biomedical sciences, ecology and evolution, genetics, and plant sciences.

Courses in some areas require a background in chemistry. Alternatively students may utilise the program to provide a broad overview of biological sciences today.

- **Master of Biotechnology**
  - Full time: 2 years
  - Semester intake: 1 or 2
  - Program code: MBIO B
  - Apply: uac.edu.au
  - Indicative annual fee: A$24,782
  - Program overview: The Master of Biotechnology is a graduate coursework program that provides a pathway for science graduates with background knowledge in biochemistry, molecular biology and chemistry to acquire new knowledge, or extend and update their theoretical and practical understanding of modern biotechnology. Throughout the program, students have many opportunities to work with scientists who are advancing research in areas of biochemistry and molecular biology in the biomedical, animal and plant sciences.
  - Admission requirements: A Bachelor degree with an average mark of at least 70 per cent and at least eight courses in cognate disciplines and two courses in the field of chemistry. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit.
  - Cognate disciplines: Biological Chemistry, Biomedical Sciences, Molecular Genetics, Plant Sciences.

- **Master of Biotechnology (Advanced)**
  - Full time: 2 years
  - Semester intake: 1 or 2
  - Program code: VB IO T
  - Apply: uac.edu.au
  - Indicative annual fee: A$24,782
  - Program overview: The Master of Biotechnology (Advanced) is a two-year coursework and research program. Students complete one year of coursework followed by one year of research, involving independent
Master of Neuroscience (Advanced)

Full time: 2 years
Semester intake: 1 or 2
Program code: VNEUR
Apply: uac.edu.au
Indicative annual fee: $24,782
Program overview: The ANU Master of Neuroscience (Advanced) is a two-year program that consists of one year coursework plus a year of independent research. The coursework component will provide you with an advanced knowledge of current concepts in neuroscience, and will support those who wish to move into a neuroscience field from related areas of science and psychology but do not have a significant neuroscience background. Your independent research will be required to develop expertise in a nominated area through independent research and completion of a dissertation.
Admission requirements: A Bachelor degree with an average mark of at least 70 per cent and at least eight courses in cognate disciplines. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit. Students must achieve a minimum 70 per cent average mark in the first 48 units of coursework or have the approval of the supervisor for the research project. Students who do not achieve a minimum 70 per cent average mark in the first 48 units of coursework or have the approval of the supervisor for the research project will be transferred to the Master of Biotechnology program.
Cognate disciplines: Biological Chemistry, Biomedical Sciences, Molecular Genetics, Plant Sciences.

Business, Business IT, Management and Marketing

Master of Business Administration

Full time: 2 years
Semester intake: 1 or 2
Program code: 7810XMBB
Apply: uac.edu.au
Indicative annual fee: $27,283
Program overview: The Master of Business Administration develops advanced knowledge and skills for professional or highly skilled managerial work. Students gain both theoretical and applied knowledge in the business administration disciplines. Graduates will have an understanding of recent developments in the disciplines of business administration and professional practice. In particular they will understand the relationship between theory and applied knowledge and the research from which it emerges. Students have the option of choosing one of the following specialisations: Marketing, International Business, Financial Markets, Project Management, Reporting and Governance, or Business Information Systems.
Admission requirements: A Bachelor degree with an average mark of at least 65 per cent and evidence of work, leadership or an international experience demonstrating maturity and independence. Applicants with a Bachelor degree in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit.

Master of Business Information Systems

Full time: 2 years
Semester intake: 1 or 2
Program code: 7417XMBS
Apply: uac.edu.au
Indicative annual fee: $27,283
Program overview: The Master of Business Information Systems program is designed for graduates either with or without a background in information systems. Students without an
information systems background are taken through foundational topics in their first year of study, leading them into the second year which deals with more advanced material. An extensive list of electives is provided to allow students to focus their study on those areas of particular interest or relevance to them. The program has professional level accreditation by the Australian Computer Society.

Admission requirements: A Bachelor degree with an average mark of at least 65 per cent. Applicants with a Bachelor degree in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit.

Master of Project Management
Full time: 2 years
Semester intake: 1 or 2
Program code: MPROM
Apply: uac.edu.au
Indicative annual fee: $A27,283
Program overview: The Master of Project Management is an ideal preparation for students seeking leadership positions in the project management profession. It provides the theoretical underpinning that can be applied across a range of industries, disciplines and cultures. Graduates will gain the skills and knowledge to manage large and complex projects from start to finish; report on project status to external stakeholders; analyse and explain the link between business strategy and articulate the link between theory and best practice.

Admission requirements: A Bachelor degree with an average mark of at least 65 per cent. Applicants with a Bachelor degree in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (two semesters) of credit. Applicants with relevant work experience may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Certificate or equivalent professional/executive training such as a pre-masters program, in a cognate discipline may be eligible for 24 units (one semester) of credit. The maximum credit that may be granted for a combination of cognate study and relevant work experience is 48 units (two semesters).

Graduate Certificate of Business Information Management
Full time: 1 semester
Semester intake: 1 or 2
Program code: 6462XGBIM
Apply: uac.edu.au
Indicative annual fee: $A13,641
Program overview: This program offers the opportunity for IT professionals to develop their skills in data management, business process management, systems-oriented architecture and systems development. The program has been developed in collaboration with NICTA and with input from an industry reference group to cater for two categories of student: IT professionals seeking to develop skills that will enable them to take a strategic approach to the development of IT solutions, and non-IT personnel who need to understand IT development from a strategic management perspective.

Admission requirements: A Bachelor degree with an average mark of at least 65 per cent.

Graduate Certificate of Management
Full time: 1 semester, offered online only
Semester intake: Part-time: 1 or 2.
Full time: 2nd only.
Program code: 6860XGCMGT
Apply: uac.edu.au
Indicative annual fee: $A13,641
Program overview: The Graduate Certificate in Management is a short program of four courses which provide practical knowledge for higher level managerial and professional work and a foundation for further study, for example in the Master of Management or MBA programs.

Admission requirements: A Bachelor degree with an average mark of at least 65 per cent. Applicants without a Bachelor degree but with three years or more of relevant work experience may be considered for admission.

Master of Project Management
Full time: 2 years
Semester intake: 1 or 2
Program code: MPROM
Apply: uac.edu.au
Indicative annual fee: $A27,283
Program overview: The Master of Project Management is an ideal preparation for students seeking leadership positions in the project management profession. It provides the theoretical underpinning that can be applied across a range of industries, disciplines and cultures. Graduates will gain the skills and knowledge to manage large and complex projects from start to finish; report on project status to external stakeholders; analyse and explain the link between business strategy and articulate the link between theory and best practice.

Admission requirements: A Bachelor degree with an average mark of at least 65 per cent. Applicants with a Bachelor degree in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit. The maximum credit that may be granted for a combination of cognate study and relevant work experience is 48 units (two semesters).

All applicants must meet the University's English Language Admission Requirements for Students. Full details: students.anu.edu.au/programs

Master of Classical Studies (Advanced)

Full time: 2 years
Semester intake: 1 or 2
Program code: VCLAS
Apply: uac.edu.au
Indicative annual fee: A$20,815
Program overview: With a Master of Classical Studies (Advanced), you can explore the ancient Greek and Roman worlds while enjoying some very modern travel. Experience the opportunity of a lifetime studying antiquity in Turkey and archaeology in Italy and Greece. Or closer to home, you can draw on the University's expertise in language, literature and ancient history, and the wealth of resources in the ANU Classics Museum. As a graduate of the Master of Classical Studies (Advanced) you will be uniquely equipped to apply your perspective on the ancient world to your understanding of our world today.

Career opportunities: A Master of Classical Studies will advance your career as a university teacher or administrator, professional researcher, policy maker, diplomat, schoolteacher, journalist, librarian, or any profession involving the analysis of arguments, interpretation of texts, and writing skills.

Admission requirements: By transfer from the Master of Classical Studies, with a weighted average mark of at least 70 per cent in the first 72 units of course work attempted as well as the approval of an identified supervisor for the research project/thesis. If the total number of units attempted exceeds 72 in the same teaching period in which the 72nd unit is attempted, exactly 72 units will be used in the calculation of the weighted average mark with units from the course with the highest mark applied first followed by further units from courses in descending order of marks. Students will be awarded up to 72 units of course credit for completed courses listed in this Master (Advanced) degree.

Cognate disciplines: Ancient Greek, Ancient History, Art History, Archaeology, History, Latin.

Master of Computing

Full time: 2 years
Semester intake: 1 or 2
Program code: 7706XCMCNP
Apply: uac.edu.au
Indicative annual fee: A$24,782
Program overview: The Master of Computing is a two-year full-time (or equivalent part-time) degree that provides students with: Exposure to best practice in computing; cutting edge courses in areas of relevance to computing practitioners; an opportunity to specialise in a computing sub-discipline, e.g. artificial intelligence, computer systems, computational foundations, information and human centred computing or software engineering; professional development for practicing computing professionals, including the development of excellent written and oral communication skills in the ICT context; the opportunity to undertake research of personal or professional relevance; an opportunity for non-computing graduates to transition to the computing industry; and professional accreditation with the Australian Computer Society (ACS).

Admission requirements: A Bachelor degree with an average mark of at least 65 per cent and with at least three courses (units of study) in the fields of computing and/or maths. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit.

Cognate disciplines: Computer Science, Information Technology.

Graduate Diploma of Computing

Full time: 1 year
Semester intake: 1 or 2
Program code: 6706XGDCP
Apply: uac.edu.au
Indicative annual fee: A$24,782
Program overview: This program will educate science/engineering/technology graduates in modern aspects of computing in a way that will provide a route for them into the Information Technology (IT) industry. It will also provide them with a foundation to do more advanced study in the computing discipline. Successful completion of Graduate Diploma in Computing will provide Associate membership with the Australian Computer Society.

Admissions requirement: Admission requires an approved Bachelor degree in a science, engineering or related discipline with a 65 per cent average and with at least one programming course and two mathematics courses in the areas of discrete mathematics, calculus, linear algebra and statistics. Students without a degree but have at least three years' relevant work experience, or a combination of qualifications and experience, may also receive admission. Students who complete the Graduate Diploma of Computing with a distinction average can transfer to Master of Computing with 48 units (one year) of credit.

Diplomacy

Master of Diplomacy

Full time: 2 years
Semester intake: 1 or 2
Program code: MDIPCL
Apply: uac.edu.au
Indicative annual fee: A$23,616
Program overview: The Master of Diplomacy is your pathway to professional advancement, equipping you with the skills you need to effectively represent your country or organisation at an international level. Relevant to diplomatic practitioners in diverse fields, this unique program draws on the internationally-renowned expertise of the staff of the Asia-Pacific College of Diplomacy, and positions you firmly in the centre of a global network of leading scholars and policymakers.

Admission requirements: A Bachelor degree with a 70 per cent average. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit. Students must achieve a minimum 70 per cent weighted average mark in the initial component to continue to the concluding component. Students who do not achieve a minimum 70 per cent weighted average mark in the initial component will be transferred to the Graduate Diploma of International Affairs.

Earth Sciences

Master of Earth Sciences (Advanced)
Full time: 2 years
Semester intake: 1 or 2
Program code: MERECE
Apply: uac.edu.au
Indicative annual fee: A$27,283
Program overview: Earth Science deals with complex systems and processes that shape our planet. Pressing issues such as the safe supply of water, resources and energy, climate change, sea level rise as well as natural hazards are all intimately related to Earth Sciences. Courses from different Earth Science disciplines and training on how to gather data and interpret them are offered. An extensive research project under expert supervision provides the opportunity to gain a wide range of knowledge and skills that are relevant for employment in industry, government agencies, education as well as further university studies.

Admission requirements: A Bachelor degree with an average mark of at least 70 per cent and at least eight courses in cognate disciplines, and the approval of an identified supervisor for the research project/thesis. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for up to 24 units (one semester) of credit. Students who do not achieve a minimum 70 per cent weighted average mark in the first 48 units of coursework and have the approval of the supervisor for the research project. Students who do not achieve a minimum 70 per cent average mark in the first 48 units of coursework or have the approval of the supervisor for the research project will be transferred to the Graduate Diploma of Science.

Economics

Master of Applied Economics
Full time: 2 years
Semester intake: 1 only
Program code: MAFEC
Apply: uac.edu.au
Indicative annual fee: A$27,283
Program overview: The Master of Applied Economics provides rigorous training in econometric and quantitative methods. It will provide students with an understanding of how economic principles can be applied in the world of business and finance, as well as being able to frame national policy issues in a quantitative context.

Admission requirements: A Bachelor degree with an average mark of at least 65 per cent. Applicants with a Bachelor degree or Graduate Certificate in Economics may be considered for 24 units (one semester) of credit. Students who do not achieve a minimum 70 per cent weighted average mark in the initial component to continue to the concluding component. Students who do not achieve a minimum 70 per cent weighted average mark in the initial component will be transferred to the Graduate Diploma of Economics.

Cognate discipline: Economics.

Master of Economics
Full time: 2 years
Semester intake: 1 only
Program code: MECON
Apply: uac.edu.au
Indicative annual fee: A$27,283
Program overview: The Master of Economics is one of the longest-standing graduate programs in Australia and has been the graduate program of choice for many professional economists and policymakers for over 40 years. The program will provide students with the skills to undertake formal economic analysis and the technical knowledge to interpret academic economics literature. Students will gain an understanding of recent developments in theoretical and applied economics and the skills and knowledge to undertake independent research in economic theory.

Admission requirements: A Bachelor degree with an average mark of at least 65 per cent. Students must achieve a minimum 70 per cent weighted average mark in the initial component to continue to the concluding component. Students who do not achieve a minimum 70 per cent weighted average mark in the initial component will be transferred to the Graduate Diploma of Economics. Applicants with a cognate Bachelor degree or ANU Graduate Certificate may be eligible for 24 units (one semester) of credit. Applicants with an ANU Bachelor Honours or Graduate Diploma in Economics may be considered for credit.

Cognate discipline: Economics.

Master of Economic Policy
Full time: 2 years
Semester intake: 1 or 2
Program code: 7432MECPO
Apply: uac.edu.au
Indicative annual fee: A$27,283
Program overview: The Master of Economic Policy will give students the ability to apply economics to policy formation and evaluation. They will gain an understanding of the issues involved in the coordination of economic policy at national and international level and be able to analyse the economic effects of policy changes and communicate them as a professional economist. They will also learn the skills and knowledge to be able to undertake independent research in economic theory.

Admission requirements: A Bachelor degree. Up to 24 units of credit is available for a Bachelor degree in a cognate discipline or Graduate Certificate in a cognate discipline. Up to 48 units of credit is available for a Honours degree in a cognate discipline or Graduate Diploma in a cognate discipline. Credit may also be available for relevant work experience. Students must achieve a minimum 50 per cent weighted average mark in the initial component to continue
All applicants must meet the University’s English Language Admission Requirements for Students.

Full details: students.anu.edu.au/programs
Master of Engineering in Solar Energy Technologies

Full time: 2 years
Semester intake: 1 or 2
Program code: NSETE
Apply: uac.edu.au

Indicative annual fee: A$24,782

Program overview: The aim of this two-year program is to provide students with a qualification in Engineering at the Master level. Students will gain in-depth advanced technical knowledge in Solar Energy Technologies, an area of world-leading research strength at ANU. The global renewable energy industry is growing rapidly, offering exciting career prospects in research and development, manufacturing industries and large-scale renewable energy projects. The program contains a targeted professional development component as well as an opportunity to select electives from other areas of study anywhere in the University.

Admission requirements: A Bachelor degree in a cognate discipline with an average mark of at least 70 per cent.

Environment and Resource Management

Master of Climate Change

Full time: 2 years
Semester intake: 1 or 2
Program code: MCLCH
Apply: students.anu.edu.au/applications

Indicative annual fee: A$30,117

Program overview: Do you want to tackle one of the most important and complex environmental problems encountered by humankind? The ANU Master of Climate Change program offers significant breadth and strength within the field through access to world-leading expertise in climate change science and policy, encompassing science, economics, law, policy and governance aspects of climate change vulnerability, adaptation and mitigation. This means that you can develop a unique program of advanced learning suited to your individual interests and skills. Our program covers core topics of climate impacts, vulnerability and adaptation, climate change economics and policy, and methodological approaches. Elective courses can be selected from a wide range of topics to suit your educational goals.

Admission requirements: A Bachelor degree. Applicants with a Bachelor degree in a cognate discipline may be eligible for up to 48 units of credit.

Master of Energy Change

Full time: 2 years
Semester intake: 1 or 2
Program code: MENCH
Apply: uac.edu.au

Indicative annual fee: A$24,782

Program overview: The Master of Energy Change is an interdisciplinary coursework program which allows students to develop a program of advanced learning suited to their individual interests, skills and aspirations in the area of energy change. A major key to addressing climate change is the need for a world-wide change to carbon-free forms of energy production. The need for energy change is well established yet there are relatively few people with an effective overview or the multi-disciplinary skills needed to effectively contribute to this complex issue. Our graduates find work in government, policy, scientific research, development and aid organisations, multi-national companies, and many other exciting fields.

Admission requirements: A Bachelor degree with an average mark of at least 70 per cent and at least eight courses in cognate disciplines. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for up to 24 units (one semester full-time) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for up to 48 units (one year full-time) of credit.

Cognate disciplines: Biology, Chemistry, Engineering, Economics, Environmental Studies, Law, Mathematics, Political Science, Physics, Sociology.

Master of Energy Change (Advanced)

Full time: 2 years
Semester intake: 1 or 2
Program code: VENCH
Apply: uac.edu.au

Indicative annual fee: A$24,782

Program overview: The Master of Energy Change (Advanced) is a multi-disciplinary coursework and research degree which will provide students with both a strong basis in the fundamental areas related to energy change, as well as allowing them to undertake advanced courses and research in areas suited to their individual interests. A major key to addressing climate change is the need for a world-wide change to carbon-free forms of energy production. Our program brings together the wide-ranging expertise present at ANU to cover policy, legal, environmental and regulatory aspects of energy change, underpinned by a fundamental scientific and technical base.

Admission requirements: A Bachelor degree with an average mark of at least 70 per cent and at least eight courses in cognate disciplines. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for up to 24 units (one semester full-time) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for up to 48 units (one year full-time) of credit. Students must achieve a minimum 70 per cent average mark in the first 48 units of coursework and have the approval of the supervisor for the research project. Students who do not achieve a minimum 70 per cent average mark in the first 48 units of coursework or have the approval of the supervisor for the research project will be transferred to the Master of Energy Change.

Cognate disciplines: Biology, Chemistry, Engineering, Economics, Environmental Studies, Law, Mathematics, Political Science, Physics, Sociology.

Master of Environment

Full time: 2 years
Semester intake: 1 or 2
Program code: MENV
Apply: uac.edu.au

Indicative annual fee: A$24,782

Program overview: The Master of Environment is a flexible interdisciplinary coursework degree that allows students to develop a program of advanced learning suited to their individual interests and skills in environment and sustainability. A broad-ranging suite of courses from across the University provide exposure to current perspectives on environmental issues and approaches. Areas of interest include environmental science and management, social and ecological linkages, environmental economics and governance, environmental policy, and integrative research methods. Students will also develop depth of knowledge in a selected disciplinary area: available options include biodiversity conservation, climate science and policy, environmental policy, geography, human ecology, natural resource management, sustainability science, and water science and policy.

Admission requirements: A Bachelor degree with an average mark of at least 60 per cent. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 48 units (one year) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit.

Master of Environment (Advanced)

Full time: 2 years
Semester intake: 1 or 2
Program code: VENVI
Apply: uac.edu.au

Indicative annual fee: A$24,782

environmental science and management, social and ecological linkages, environmental economics and governance, environmental policy, and integrative research methods. Students will also develop depth of knowledge in a selected disciplinary area: available options include biodiversity conservation, climate science and policy, environmental policy, geography, human ecology, natural resource management, sustainability science, and water science and policy. Students will also develop research expertise through completing a substantial dissertation, which constitutes appropriate research training for the PhD.

Admission requirements: A Bachelor degree with an average mark of at least 60 per cent. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit. Students must achieve a minimum 60 per cent average mark in the first 48 units of coursework and have the approval of the supervisor for the research project. Students who do not achieve a minimum 60 per cent average mark in the first 48 units of coursework or have the approval of the supervisor for the research project will be transferred to the Master of Environmental Science.

**Master of Environmental Management and Development**

Full time: 2 years
Semester intake: 1 or 2
Program code: MEMDV
Apply: students.anu.edu.au/applications
Indicative annual fee: $24,782

Program overview: The Master of Environmental Management and Development will boost your career in natural resource management and environmental policy, and improve your professional ability to respond to the complex challenges of sustainable development. Offered by the internationally-renowned Crawford School, the program will equip you with the theoretical understanding and practical skills you need to contribute to the goals of economic viability, social acceptability and environmental sustainability in different social and political contexts. Focus areas include biodiversity conservation, climate change, social impacts, environmental governance, and management of primary resources such as water, fisheries, forests, and minerals.

Admission requirements: A Bachelor degree. Up to 24 units of credit is available for a Bachelor degree in a cognate discipline or Graduate Certificate in a cognate discipline. Up to 48 units of credit is available for a Honours degree in a cognate discipline or Graduate Diploma in a cognate discipline. Credit may also be available for relevant work experience. Students must achieve a minimum 65 per cent weighted average mark in the initial component to continue to the concluding component. Students who do not achieve a minimum 65 per cent weighted average mark in the initial component will be transferred to the Graduate Diploma in Environmental Management and Development.

**Master of Environmental Science**

Full time: 2 years
Semester intake: 1 or 2
Program code: MENVS
Apply: uac.edu.au
Indicative annual fee: $24,782

Program overview: Do you want to engage with current scientific understanding and explanations of environmental processes and issues? The Master of Environmental Science is a flexible program for those wishing to develop breadth in environmental science and its applications, and depth in aspects of one or more of the biological, earth and environmental and ecological sciences. This program is for those students wanting to increase their scientific and professional expertise for careers in many aspects of environmental science, including environmental policy, management, administration, industry, services and research.

Admission requirements: A Bachelor degree with an average mark of at least 70 per cent and at least eight courses in cognate disciplines. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit. Students must achieve a minimum 70 per cent average mark in the first 48 units of coursework or have the approval of the supervisor for the research project. Students who do not achieve a minimum 70 per cent average mark in the first 48 units of coursework or have the approval of the supervisor for the research project will be transferred to the Master of Environmental Science.

**Graduate Certificate of Environment**

Full time: 1 semester
Semester intake: 1 or 2
Program code: 6659XGCENV
Apply: uac.edu.au
Indicative annual fee: $12,391

Program overview: The ANU Graduate Certificate of Environment provides students with a flexible education experience and acts as an entry point for more advanced coursework degree programs. Areas of study include environmental economics and governance, environmental science, society and environmental research methods, and natural resource management.

Admission requirements: A Bachelor degree with an average mark of at least 60 per cent. Applicants must include referee reports from two professional referees.

**Master of Forestry**

Full time: 2 years
Semester intake: 1 or 2
Program code: MFORE
Indicative annual fee: $24,782
Apply: uac.edu.au
Program overview: Forestry encompasses the management of natural forests and woodlands, plantations and agroforestry through the practical application of scientific, economic and social principles. Sustainable management of forest resources requires both short-term management of variability and the ability to plan for the long-term sustainability of forest ecosystems. The Master of Forestry offers a flexible program of advanced learning to develop your knowledge and skills in forestry and the forest sciences and their relationship to other land management disciplines. The broad scope of the program reflects the diversity of perspectives needed for effective forest management and policy. Students will also develop research expertise through completing a substantial dissertation, which constitutes appropriate research training for the PhD.

Admission requirements: A Bachelor degree with an average mark of at least 70 per cent and at least eight courses in cognate disciplines. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit. Students must achieve a minimum 70 per cent average mark in the first 48 units of coursework or have the approval of the supervisor for the research project. Students who do not achieve a minimum 70 per cent average mark in the first 48 units of coursework or have the approval of the supervisor for the research project will be transferred to the Master of Environmental Science.

resource management, and the choice of courses within forestry sub-disciplines develops your knowledge in either the science and methods or policy and management aspects of forestry.

**Admission requirements:** A Bachelor degree with an average mark of at least 60 per cent. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit.

**Cognate disciplines:** Ecology, Environmental Policy, Environmental Science, Environmental Studies, Forestry, Natural Resource Economics, Natural Resource Management, Resource Management.

### Master of Forestry (Advanced)

**Full time:** 2 years  
**Semester intake:** 1 or 2  
**Program code:** VFORE

**Indicative annual fee:** $24,752  
**Program overview:** Forestry encompasses the management of natural forests and woodlands, plantations and agroforestry through the practical application of scientific, economic and social principles. Sustainable management of forest resources requires both short-term management of variability and the ability to plan for the long-term sustainability of forest ecosystems. The Master of Forestry (Advanced) offers a flexible program of advanced learning to develop your knowledge and skills in forestry and the forest sciences and their relationship to other land management disciplines. The broad scope of the program reflects the diversity of perspectives needed for effective forest resource management, and the choice of courses within forestry sub-disciplines develops your knowledge in either the science and methods or policy and management aspects of forestry. You will also develop research expertise through completing a substantial dissertation, which constitutes appropriate research training for PhD entry.

**Admission requirements:** A Bachelor degree with an average mark of at least 60 per cent. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit. Students must achieve a minimum 60 per cent average mark in the first 48 units of coursework or have the approval of the supervisor for the research project. Students who do not achieve a minimum 60 per cent average mark in the first 48 units of coursework or have the approval of the supervisor for the research project will be transferred to the Master of Forestry.

**Cognate disciplines:** Ecology, Environmental Policy, Environmental Science, Environmental Studies, Forestry, Natural Resource, Economics, Natural Resource Management, Resource Management.

### Master of Applied Finance

**Full time:** 1.5 year  
**Semester intake:** 1 or 2  
**Program code:** F421XMAPPFN

**Indicative annual fee:** $27,283  
**Program overview:** The Master of Applied Finance provides students with specialist skills to enable them to undertake a range of financial projects. They will develop an understanding of financial management principles and their application to corporate finance policy. The program will also provide students with the analytical skills to be able to interpret financial information, instruments and institutions. It is designed for both students with a first degree in finance wishing to build on their prior study, or those wanting a career change who have some prior exposure to finance through study, work experience or training.

**Admission requirements:** A Bachelor degree with an average mark of at least 65 per cent.

### Master of Finance

**Full time:** 2 years  
**Semester intake:** 1 or 2  
**Program code:** 7418XMFN

**Apply:** uac.edu.au  
**Indicative annual fee:** $27,283  
**Program overview:** The Master of Finance will equip graduates with the necessary skills to excel in the global financial marketplace. Students will examine fundamental principles in finance relevant to a wide range of activities including, the valuation of financial securities and corporations, the use of derivatives for risk management purposes, and the exploration of diversification methods to create investment portfolios. The program will challenge students to solve financial problems and will develop a keen analytical mind which is essential when working in the fast-paced world of finance. The Master of Finance is recognised as a program partner by the CFA Institute.

**Admission requirements:** A Bachelor degree with an average mark of at least 65 per cent. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit.

**Cognate disciplines:** Anthropology, Environmental Studies, Economics, Development Studies, Governance, International Relations, History, Law, Middle Eastern and Central Asian Studies, Philosophy, Politics, Public Policy, Public Administration, Social Research, Strategic Studies, Sociology.

### Master of Globalisation

**Full time:** 2 years  
**Semester intake:** 1 or 2  
**Program code:** VGLOB

**Apply:** uac.edu.au  
**Indicative annual fee:** $20,815  
**Program overview:** How do you give your career an edge in an increasingly globalised world? You become an expert in globalisation itself. The Master of Globalisation is the only degree in Australia focusing on the rapid pace of economic, cultural, political and social change in the world today and the challenges it brings. The program is designed to meet your professional needs, with problem-based learning and tailored focus areas including security, development, environmental sustainability and regional implications.

**Career opportunities:** The Master of Globalisation will advance your career in multinational business, government, international organisations and non-government organisations.

**Admission requirements:** A Bachelor degree with an average mark of at least 65 per cent. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit.

**Cognate disciplines:** Anthropology, Environmental Studies, Economics, Development Studies, Governance, International Relations, History, Law, Middle Eastern and Central Asian Studies, Philosophy, Politics, Public Policy, Public Administration, Social Research, Strategic Studies, Sociology.

### Master of Globalisation (Advanced)

**Full time:** 2 years  
**Semester intake:** 1 or 2  
**Program code:** VGLOB

**Apply:** uac.edu.au  
**Indicative annual fee:** $20,815  
**Program overview:** How do you give your career an edge in an increasingly globalised world? You become an expert in globalisation itself. The Master of Globalisation is the only degree in...
Master of Studies (Advanced)

Full time: 2 years
Semester intake: 1 or 2
Program code: VSSTUD
Apply: uac.edu.au
Indicative annual fee: $A20,815

Program overview: The Master of Studies is a flexible option for graduate studies at ANU for students whose needs are not met by following a program of study in a single academic discipline. Subject to meeting course entry requirements, you will be able to select courses from across the graduate course offerings available, allowing you to structure your studies and direct your learning in a way that meets your academic, personal and professional interests and enables you to develop skills and expertise in a range of learning areas, for example, a combination of courses in art history, environmental science, finance and management.

Admission requirements: By transfer from the Master of Studies, with a weighted average mark of at least 70 per cent in the first 72 units of course work attempted as well as the approval of an identified supervisor for the research project/thesis. If the total number of units attempted exceeds 72 in the same teaching period in which the 72nd unit is attempted, exactly 72 units will be used in the calculation of the weighted average mark with units from the course with the highest mark applied first followed by further units from courses in descending order of marks. Students will be awarded up to 72 units of course credit for completed courses listed in this Master (Advanced) degree.

Cognate discipline: All disciplines.

History

Master of History (Advanced)

Full time: 2 years
Semester intake: 1 or 2
Program code: MHST
Apply: uac.edu.au
Indicative annual fee: $A20,815

Program overview: With internationally renowned teaching staff, and surrounded by national cultural institutions, ANU is a historian’s dream. By studying history at ANU you can draw upon our prize-winning teaching and research in Australian, North American, early modern and modern European, and British history, and the expertise of our leading centres for Indigenous history, environmental history, and biography. The resources of the National Library of Australia, the National Archives of Australia, the National Museum of Australia, and the National Gallery of Australia are also at your fingertips. The Master of History provides the theoretical grounding and practical skills you need for the advanced study of history, plus the opportunity to tailor a program according to your interests. If you’re a secondary school teacher, you are able to focus on areas in the national curriculum for history.

Career opportunities: A Master of History will advance your career in government, industry, finance, politics, public relations, the services sector, teaching, the arts or in any profession requiring good management of diverse information, analytical and writing skills.

Admission requirements: By transfer from the Master of History, with a weighted average mark of at least 70 per cent in the first 72 units of course work attempted as well as the approval of an identified supervisor for the research project/thesis. If the total number of units attempted exceeds 72 in the same teaching period in which the 72nd unit is attempted, exactly 72 units will be used in the calculation of the weighted average mark with units from the course with the highest mark applied first followed by further units from courses in descending order of marks. Students will be awarded up to 72 units of course credit for completed courses listed in this Master (Advanced) degree.

Cognate disciplines: Ancient History, Archaeology, History, Journalism, Museum Studies, Philosophy, Politics, Sociology, Social Sciences.

International Relations

**Master of International Relations**

Full time: 2 years  
Semester intake: 1 or 2  
Program code: MIND  
Apply: uac.edu.au  
Indicative annual fee: $23,616  
Program overview: Studying international relations at ANU means you will be studying the best program of its kind in Australia and graduating with one of the most respected degrees in this field in the world. The Master of International Relations is the only international relations program in Australia to focus on the Asia Pacific, and encourages you to engage with emerging ideas and practices from across our region through face-to-face seminars with globally recognised experts.

Admission requirements: A Bachelor degree with a 70 per cent average. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit. Students must achieve a minimum 70 per cent weighted average mark in the initial component to continue to the concluding component. Students who do not achieve a minimum 70 per cent weighted average mark in the initial component will be transferred to the Graduate Diploma in International Affairs.

Cognate disciplines: Economics, History, International Relations, Politics, Political Science, Sociology, Public Policy, Public Administration, Strategic Studies, Social Science.

**Master of International Relations (Advanced)**

Full time: 2 years  
Semester intake: 1 or 2  
Program code: VINTR  
Apply: uac.edu.au  
Indicative annual fee: $23,616  
Program overview: Studying international relations at ANU means you will be studying the best program of its kind in Australia and graduating with one of the most respected degrees in this field in the world. The Master of International Relations (Advanced) is a 2-year program comprised of coursework and a research project.

Admission requirements: A Bachelor degree with a 70 per cent average. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit. Students must achieve a minimum 70 per cent weighted average mark in the initial component to continue to the concluding component. Students who do not achieve a minimum 70 per cent weighted average mark in the initial component will be transferred to the Graduate Diploma in International Affairs.

Cognate disciplines: History, International Relations, Politics, Political Science, Sociology, Public Policy, Public Administration, Strategic Studies, Social Science.

Law

**Master of Laws in Environmental Law**

Full time: 1 year  
Semester intake: 1 or 2  
Program code: NLLEN  
Apply: uac.edu.au  
Indicative annual fee: $23,616  
Program overview: For more than twenty years, ANU has been at the forefront of teaching environmental law at a postgraduate level, attracting students from around Australia and internationally. A graduate degree in Environmental Law will provide you with a sophisticated understanding of the law, and allow you to explore its origins and implementation, strengths and weaknesses. The Master program covers key areas of environmental law from climate change to marine and coastal law, to Commonwealth environmental law and environmental regulation. The courses examine the interrelationships between environmental law and policy, politics, economics, science and history. You will have the opportunity to study with many of Australia’s foremost environmental lawyers and profoundly enhance your knowledge and credentials. An Environmental Law program will suit you if you work in areas involving environmental management and environmental policy, within government or the private sector. It will also suit you if you have studied science, engineering, architecture, town planning or economics (or any non-law degree) and are currently working in employment where environmental law and its interaction with environmental policy and management are important. If you are seeking employment in an area or department where knowledge of environmental law in decision making is important; and if you are a lawyer and looking to specialise in environmental law.

Admission requirements: Completion of a Bachelor of Laws or Juris Doctor degree with a minimum average of at least 50 per cent or completion of a non-law degree and the Graduate Certificate of Law with a minimum average of at least 50 per cent.

Cognate discipline: Law.

**Master of Laws in Government and Regulations**

Full time: 1 year  
Semester intake: 1 or 2  
Program code: NLLGR  
Apply: uac.edu.au  
Indicative annual fee: $23,616  
Program overview: Studying Government and Regulation will provide you with an insight into the legal framework underlying government, examining both the process and product of government regulation and the underlying legal structures upon which it is built. This program will allow you to develop a strong understanding of the modern regulatory state including the role of key areas of commercial and public law. It will combine comparative and multi-disciplinary perspectives in examining the design, implementation and effectiveness of regulation in Australia. Courses in Government and Regulation are taught by a range of experts including academics who are contributing to cutting-edge research and reform, experienced lawyers, parliamentary drafters and other practitioners who bring an extensive range of resources and experience to students. Courses included in this program span legal areas governing the operation of government including Administrative and Constitutional Law, areas such as Competition Law, Corporate Governance and Labour Law, though to more specialised courses such as Health Law and Bioethics. Students include a mix of lawyers, policymakers, government employees and full-time students. Some courses also have a strong global focus making them highly suitable for international students. This specialisation is highly flexible, allowing you to choose courses that are compatible with their current area of work or that extend your knowledge in new directions. Whether you area working in private practice, within government or are looking to expand your legal knowledge for your future career – this program offers diversity, flexibility and knowledge suitable for a wide range of students.

Admission requirements: Completion of a Bachelor of Laws or Juris Doctor degree with a minimum average of at least 50 per cent or completion of a non-law degree and the Graduate Certificate of Law with a minimum average of at least 50 per cent.

Cognate discipline: Law.

**Master of Laws in International Law**

Full time: 1 year  
Semester intake: 1 or 2  
Program code: NLLIL  
Apply: uac.edu.au  
Indicative annual fee: $23,616  
Program overview: International law regulates the relations between States and with other actors at the international level and can affect society in a variety of ways, both internationally and at the...
All applicants must meet the University’s English Language Admission Requirements for Students. Full details: students.anu.edu.au/programs

Domestic level. It helps us to explain and analyse interactions in the international community and their impact within national societies. Having completed both Principles and Advanced Principles of International Law at the start of their program to acquire the skills necessary to navigate the international legal system, students will have the opportunity to focus on areas of particular interest through a vast array of elective courses, many of which will require the completion of a substantial research paper. The Master of Laws in International Law Augmentation will be relevant to you if your work involves consideration of international relations and transnational activities; you are interested in governmental and non-governmental organisations; and/or you are concerned with issues such as human rights, international trade, the use of force or international dispute settlement. Having canvassed the breadth of the international legal system, students may wish to deepen their study of specific international legal issues through the pursuit of a SJD or PhD.

Admission requirements:
- Completion of a Bachelor of Laws or Juris Doctor degree with a minimum average of at least 50 per cent or completion of a non-law degree and the Graduate Certificate of Law with a minimum average of at least 50 per cent.
- Cognate discipline: Law.

Master of Laws in Governance and Development

Full time: 1 year
Semester intake: 1 or 2
Program code: NLLGD
Apply: uac.edu.au
Indicative annual fee: A$23,616
Program overview: Law, Governance and Development focuses on the role that local, national and international systems of law and governance play in fostering social and economic development in developing and transitional countries. The program introduces students to a range of theoretical and methodological tools and strengthens their ability to think critically and creatively about the links between law, governance and development. It includes a focus on historical shifts and current trends in law and development theory and practice, drawing on practical examples from Asia and the Pacific.

Admission requirements:
- Completion of a Bachelor of Laws or Juris Doctor degree with a minimum average of at least 50 per cent or completion of a non-law degree and the Graduate Certificate of Law with a minimum average of at least 50 per cent.
- Cognate discipline: Law.

Juris Doctor

Full time: 3 years
Semester intake: 1 or 2
Program code: 7330JD
Apply: uac.edu.au
Indicative annual fee: A$23,616
Program overview: The ANU Juris Doctor (JD) is a distinctive program for graduates of non-law disciplines (or non-Australian law graduates). It equips students with the academic qualification for admission to practice. The degree has a greater focus on research than the LLB degree.

Admission requirements:
- A Bachelor degree with normally a minimum average of 65 per cent.

Graduate Certificate of Law

Full time: 1 semester
Semester intake: 1 or 2
Program code: CLAW
Apply: uac.edu.au
Indicative annual fee: A$11,808
Program overview: The Graduate Certificate of Law offered by the ANU College of Law is the best way to start your postgraduate legal studies – whether you are a non-law graduate or a law graduate from an overseas university. The program is designed to be a stand-alone qualification or provide an entry qualification for the Master of Laws. Completion of the program is compulsory for all non-law graduates seeking to progress to a Master of Laws at the ANU College of Law. The program is optional for all law graduates from overseas universities who might like to increase their understanding of Australian Law or Law and Legal Institutions.

Admission requirements:
- A Bachelor degree or an international equivalent with a minimum average mark of 50 per cent.

Graduate Certificate of Australian Migration Law and Practice

Full time: Delivered online
Semester intake: 1 or 2
Program code: 6335XGMQL
Apply: students.anu.edu.au/applications
Indicative annual fee: A$11,808
Program overview: The ANU College of Law Legal Workshops is Australia’s largest provider of the Graduate Certificate in Australian Migration Law and Practice. If you want to practice as a registered migration agent or if you want to be up to date with migration law and practice, you’ll find this a stimulating and rewarding program.

Admission requirements:
- Applicants must hold at least a three-year Bachelor degree or equivalent.
ANU College of Arts & Social Sciences
ANU College of Asia & the Pacific
ANU College of Business & Economics
ANU College of Engineering & Computer Science
ANU College of Medicine, Biology & Environment
ANU College of Physical & Mathematical Sciences

Graduate Diploma of Legal Practice

Full time: 1 year
Semester intake: 1 or 2
Program code: 6303XGDLP
Apply: students.anu.edu.au/applications
Indicative annual fee: refer to law.anu.edu.au
Program overview: The Graduate Diploma of Legal Practice (GDLP) is offered to students who have completed an LLB or JD and is required for admission to legal practice. The GDLP is a national program commencing with a five-day intensive offered throughout the year in capital cities and regional centres. After the intensive, the program is wholly online and qualifies students for direct admission in all states and territories except South Australia, where reciprocal admission can be obtained. Graduates of a GDLP will have advanced knowledge of Australian law and legal practice in order to provide advice and representation to clients and other stakeholders.

The GDLP builds on the curriculum set by the Australasian Professional Legal Education Council. The GDLP has a large staff of practising lawyers and an emphasis on mentoring students for professional and ethical legal practice. GDLP staff conduct significant research on professional legal education and the transition from student to lawyer which has informed innovative and effective methods of teaching and learning.

Admission requirements: A Bachelor degree in any discipline admitted to the program, including all assessment is online or by webcam conference.

Master of Liberal Arts

Full time: 2 years
Semester intake: 1 or 2
Program code: MNTR
Apply: uac.edu.au
Indicative annual fee: A$20,815
Program overview: With some of Australia’s leading scholars and innovators in the inter-disciplinary fields of heritage and museum studies, and national cultural and collecting institutes at your fingertips, there’s no better place to study liberal arts than ANU. Incorporating cultural heritage, museums, collections, and visual and material culture studies, a Master of Liberal Arts allows you to draw on our innovative world-leading staff, vigorous intern program and strong industry connections and partnerships to develop your professional expertise and experience. You can take a broad range of courses, or choose to specialise in: Museums and collections; Cultural and environmental heritage; Visual culture research; Public humanities and culture; Biographical research and writing.

Career opportunities: A Master of Liberal Arts will advance your career in the professional museums, collections or heritage sectors, the public service, government and non-government organisations, and academia. It also leads in to our active PhD program.

Admission requirements: By transfer from the Master of Liberal Arts, with a weighted average mark of at least 70 per cent. If the total number of units attempted exceeds 72 in the same teaching period in which the 72nd unit is attempted, exactly 72 units will be used in the calculation of the weighted average mark with units from the course with the highest mark applied first followed by further units from courses in descending order of marks. Students will be awarded up to 72 units of course credit for completed courses listed in this Master (Advanced) degree.

Linguistics and Languages

Master of General and Applied Linguistics

Full time: 2 years
Semester intake: 1 or 2
Program code: MLING
Apply: uac.edu.au
Indicative annual fee: A$20,815
Program overview: Do you have a passion for languages? Our program focuses on the nature, use and structure of language, as well as how to apply this knowledge in contexts ranging from second language learning and education, social interaction, communication across cultures, intercultural communication to language policy and language politics. This program is for you if you are interested in human linguistic capabilities in general, as well as the description and explanation of particular languages. You can undertake a specialisation in one of 19 languages. The program is designed for people who already have prior knowledge of linguistics or applied linguistics, and also for people coming from cognate areas such as speech pathology, audiology, interpreting or translation studies, language teaching, and editing.

Career opportunities: The Master of General and Applied Linguistics will advance your career in education, translation and interpreting, language teaching, speech pathology, audiology, editing, language policy, cross-cultural communication, language documentation and other positions in government and private business. It is also a pathway to further studies.

Admission requirements: A Bachelor degree in any discipline admitted to the program, including all assessment is online or by webcam conference.

Applicants with a Bachelor degree or Graduate certificate in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit. Students must achieve a minimum 70 per cent average mark in the first 48 units of coursework or have the approval of the supervisor for the research project. Students who do not achieve a minimum 70 per cent average mark in the first 48 units of coursework or have the approval of the supervisor for the research project will be transferred to the Graduate Diploma of Science.

Medicine and Health Sciences

Master of Public Health

Full time: 2 years
Semester intake: 1 or 2
Program code: MPublic
Application: uac.edu.au
Indicative annual fee: A$24,782
Program overview: Do you want to develop programs that make a difference to the health of the population as a whole? Are you interested in how disease and society interact? The ANU Master of Public Health will equip you with the foundations of public health practice, provide you with an understanding of contemporary public health issues relevant to Australia and teach you practical techniques for analysing public health problems. This program provides real experience in public health through core courses designed to give you the skills you need and electives that suit your additional interests. Workplace-related learning can be readily incorporated for those who work in relevant public health jobs.

Admission requirements: A Bachelor degree with an average mark of at least 70 per cent. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit. Students must achieve a minimum 70 per cent average mark in the first 48 units of coursework or have the approval of the supervisor for the research project. Students who do not achieve a minimum 70 per cent average mark in the first 48 units of coursework or have the approval of the supervisor for the research project will be transferred to the Master of Public Health.

Cognate disciplines: Biological Sciences. Health, Medical Sciences, Psychology, Social Sciences.

Master of Translational Medicine

Full time: 2 years
Semester intake: 1 or 2
Program code: MTRM
Application: uac.edu.au
Indicative annual fee: A$24,782
Program overview: Do you want to bridge the gap between medical research and bedside medicine? Do you want to work in a multidisciplinary field focussed on optimising patient care? With the ANU Master of Translational Medicine you can join an emerging discipline that targets the pathway from basic science to clinical medicine, and from clinical trials into standard clinical practice and health policy. This program is ideally suited for people working in clinical and allied health disciplines, in health policy and administration or for Bachelor of Medical Science or Science graduates who wish to position their scientific knowledge within a translational framework.

Admission requirements: A Bachelor degree with an average mark of at least 70 per cent and at least eight courses in cognate disciplines. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for up to 24 units (one semester full-time) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for up to 48 units (one year full-time) of credit.

Cognate disciplines: Biology Chemistry, Biomedical Sciences, Molecular Genetics and Plant Sciences.
Doctor of Medicine and Surgery (MChD)

Full time: 4 year
Semester intake: 1 only
Apply: GEMSAS gemas.edu.au
Indicative annual fee: A$51,454
Program overview: The Medicinae ac Chirurgiae Doctorandis (MChD), Latin for Doctor of Medicine and Surgery, is a comprehensive and varied four-year course for graduate students looking to enter the rewarding field of medicine. It aims to produce graduates who are committed to compassionate, ethical health care and the expansion of medical knowledge.

Admission requirements: Candidates who have completed a Bachelor degree, or are in the final year of their Bachelor degree in the year of application, and sat the Graduate Australian Medical School Admissions Test (GAMSAT) are welcome to apply. To be eligible for consideration of an interview, domestic applicants should have a minimum weighted GPA of 5.6 and a minimum overall GAMSAT score of 55 with a pass in each section. Applicants should note that meeting the minimum criteria does not guarantee an offer of interview.

Graduate Certificate of Applied Epidemiology

Full time: 1 semester
Semester intake: 1 or 2
Program code: 6619GCAPE
Apply: uac.edu.au
Indicative annual fee: A$12,391 (for one semester study)
Program overview: The Graduate Certificate in Applied Epidemiology will equip students with the knowledge and skills required to undertake applied epidemiology research in the field. This will include the knowledge and skills for the investigation of outbreaks, analysis of public health datasets and the evaluation of public health surveillance systems.

Admission requirements: Australian Bachelor degree in a cognate discipline area with an average of 60 per cent in relevant later year courses.
Cognate discipline: Epidemiology.

Master of Islam in the Modern World (Advanced)

Full time: 2 years
Semester intake: 1 or 2
Program code: VMWM
Apply: uac.edu.au
Indicative annual fee: A$20,815
Program overview: Meet the growing demand for expertise in Islamic politics and Muslim societies with a unique degree from the ANU Centre for Arab and Islamic Studies. The Master of Islam in the Modern World (Advanced) will take you on a journey through the various dynamics and debates surrounding and influencing contemporary Islam. The degree covers the relationship between Islam and dynamics such as politics, culture, political economy, and international relations. It exposes you to the great debates on Islam, such as its compatibility with democracy, its views towards modern economic and development ideas, and its role as an ideological and political force on the world stage. The degree also gives you expertise on Islam in various parts of the world, with courses focusing on, or using case studies from, the Middle East, Southeast Asia, Central Asia, Europe, and elsewhere. You will also have the opportunity to learn one of the languages most relevant to the study of the Muslim world: Arabic, Persian or Turkish.

Career opportunities: A Master of Islam in the Modern World will start or advance your career in international organisations, government, non-government organisations, development agencies, media organisations, or private sector companies. It is also good grounding for further study and a research career.
Admissions requirements: By transfer from the Master of Islam in the Modern World, with a weighted average mark of at least 70 per cent in the first 72 units of course work attempted as well as the approval of an identified supervisor for the research project/thesis. If the total number of units attempted exceeds 72 in the same teaching period in which the 72nd unit is attempted, exactly 72 units will be used in the calculation of the weighted average mark with units from the course with the highest mark applied first followed by further units from courses in descending order of marks. Students will be awarded up to 72 units of course credit for completed courses listed in this Master (Advanced) degree.
Cognate disciplines: International Relations, Modern History, Politics, Political Science, Political Economy, Religious studies/Islamic studies, Security Studies, Strategic Studies, Sociology, other Social Sciences and Humanities disciplines and fields where there is significant coverage of a relevant aspect of Middle Eastern, Central Asian or Islamic Studies and where similar approaches and methodologies are used; Modern languages relating to the Middle East and/or Central Asia region such as Arabic, Persian, Turkish, Russian or French.

Master of Middle Eastern and Central Asian Studies

Full time: 2 years
Semester intake: 1 or 2
Program code: MMECA
Apply: uac.edu.au
Indicative annual fee: A$20,815
Program overview: If you’re fascinated by the Middle East and Central Asia, transform your passion into a qualification at Australia’s premier institute for studies of the region. Leading experts from the ANU Centre for Arab and Islamic Studies will take you on a journey through the politics, international relations, modern history and political economy of the Middle East and Central Asia, drawing on our links with major counterparts in the Arab and Muslim world, as well as in North America and Europe. After completing your Master of Middle Eastern and Central Asian Studies (MMECAS), you will have the opportunity to take a Master of Diplomacy, graduating with two degrees.
Career opportunities: A MMECAS will advance your career in any professional area requiring a solid understanding of the Middle East and Central Asia, whether in diplomacy, the public service, teaching, journalism, development or business.
Admissions requirements: A Bachelor degree with an average mark of at least 65 per cent. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit.
Cognate disciplines: International Relations, Modern History, Politics, Political Science, Political Economy, Security Studies, Strategic Studies, Sociology, Religious studies/Islamic studies, other Social Sciences and Humanities disciplines and fields where there is significant coverage of a relevant aspect of Middle Eastern, Central Asian or Islamic Studies and where similar approaches and methodologies are used; and modern languages relating to the Middle East and/or Central Asia region such as Arabic, Persian, Turkish, Russian or French.

### Master of Middle Eastern and Central Asian Studies (Advanced)

**Full time:** 2 years  
**Semester intake:** 1 or 2  
**Program code:** MMECA  
**Apply:** uac.edu.au  
**Indicative annual fee:** A$20,812  
**Program overview:** If you’re fascinated by the Middle East and Central Asia, transform your passion into a qualification at Australia’s premier institute for studies of the region. Leading experts from the ANU Centre for Arab and Islamic Studies will take you on a journey through the politics, international relations, modern history and political economy of the Middle East and Central Asia, drawing on our links with major counterparts in the Arab and Muslim world, as well as in North America and Europe. After completing your Master of Middle Eastern and Central Asian Studies (MMECAS), you will have the opportunity to take a Master of Diplomacy, graduating with two degrees.

**Career opportunities:** A MMECAS will advance your career in any professional area requiring a solid understanding of the Middle East and Central Asia, whether in diplomacy, the public service, teaching, journalism, development or business.

### Music

**Master of Music**

**Full time:** 2 years  
**Semester intake:** 1 or 2  
**Program code:** MMUSI  
**Apply:** uac.edu.au  
**Indicative annual fee:** A$20,815  
**Program overview:** What does music mean? Who is it for? And what might be its future? We’re not looking for students who know the answers; we’re looking for students who ask the questions. Enrolling in a Master of Music gives you the opportunity to explore the concepts and contexts of music guided by world-class academic staff delivering lectures, tutorials, one to one tuition, ensembles, master classes, technical workshops and musical activities in the community. Your learning experiences are not just confined to the classroom or recital hall; you also have opportunities to undertake internships with an array of performance companies, production houses, public service departments, and collecting institutions. The Master of Music offers three specialisations to match your passions: Music Performance II; Music Composition, Arranging, and Sound Design II; Musicology, Ethnomusicology, and Music Curatorship.

**Career opportunities:** The Master of Music will advance your career in the traditional and emerging creative industries as a performer, composer, researcher, arranger, entrepreneur, scholar, teacher, cultural leader, or as a mixture of all of the above.

**Admission requirements:** A Bachelor degree with an average mark of at least 65 per cent. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit.

**Further information:** Applicants will be expected to have pre-existing musical knowledge such as a competency level equivalent to completion of an undergraduate major in music, or equivalent qualifications or experience. Entry to the Graduate Music Performance courses is by completion of MUSI3002 Music Performance 6 with a mark of at least 65, or audition at equivalent level. Applicants wishing to enrol in Graduate Music Performance courses are advised to contact the School to arrange for an audition as soon as possible. Entry to the Graduate Composition, Arranging and Sound Design courses is by completion of MUSI3315 Creative Musicianship 6 with a mark of at least 65, or submission of a portfolio of works of equivalent standard. Applicants wishing to enrol in Graduate Composition, Arranging and Sound Design courses are advised to contact the ANU School of Music to arrange for assessment of the portfolio as soon as possible. E: schoolofmusic@anu.edu.au  
**Cognate discipline:** Music.
What can I study?

### Master of Public Administration

**Full time:** 2 years  
**Semester intake:** 1 or 2  
**Program code:** MPUAD  
**Apply:** students.anu.edu.au/applications  
**Indicative annual fee:** $30,117

**Program overview:** The Master of Public Administration will make your leadership aspirations a reality. The internationally-recognised teaching staff at Crawford School have the real-world experience and expertise to develop your management, leadership and organisational performance skills, and help you succeed in public administration. The program integrates theory and practice to explore contemporary public dilemmas, both locally and globally, alongside the latest debates in the social sciences regarding good public administration.

**Admission requirements:** A Bachelor degree with at least three years’ work experience in public administration. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit. Students must achieve a minimum 65 per cent weighted average mark in the initial component to continue to the concluding component. Students who do not achieve a minimum 65 per cent weighted average mark in the initial component will be transferred to the Graduate Diploma in Public Administration.

**Cognate disciplines:** Economic Policy, Economics, Policy Studies, Political Economy, Political Sciences, Sociology.

### Master of Public Policy

**Full time:** 2 years  
**Semester intake:** 1 or 2  
**Program code:** MPUPEP  
**Apply:** students.anu.edu.au/applications  
**Indicative annual fee:** $30,117

**Program overview:** The purpose of the Master of Public Policy is to provide public policy education of international renown for professionals to develop further as leaders in a variety of public sector roles, including public services, third sector organisations or government affairs positions in the private sector. The MPP’s scope includes providing students with an introduction to the latest disciplinary policy debates in the social sciences and, with a mastery of theory and practice, to build the analytical tools and knowledge necessary for high quality policy analysis, including design, advocacy, and evaluation, as well as building political and program management capabilities. Stay ahead of the pack with a professional postgraduate qualification from the world-class Crawford School, renowned for its public policy expertise. The Master of Public Policy combines theory and practice to equip you with the tools and knowledge you need for high quality policy analysis, including design, advocacy, and evaluation, as well as building political and program management capabilities.

**Admission requirements:** A Bachelor degree with at least three years’ work experience in public policy. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit. Credit may also be available for relevant work experience. Students must achieve a minimum 65 per cent weighted average mark in the initial component to continue to the concluding component. Students who do not achieve a minimum 65 per cent weighted average mark in the initial component will be transferred to the Graduate Diploma in Public Administration.

**Cognate disciplines:** Economic Policy, Economics, Policy Studies, Political Economy, Political Sciences, Sociology.

### Master of Public Policy in Development Policy

**Full time:** 2 years  
**Semester intake:** 1 or 2  
**Program code:** NPPPDP  
**Apply:** students.anu.edu.au/applications  
**Indicative annual fee:** $30,117

**Program overview:** The Master of Public Policy in Development Policy transforms development professionals into experts. World-class teaching staff at Crawford School will equip you with the theoretical knowledge and the advanced policy analysis skills you need to succeed in development policy. Topics you will cover include development policies and economics, poverty reduction, social policy, political institutions and conflicts, and climate and environmental changes.

**Admission requirements:** A Bachelor degree with at least three years’ work experience in public policy. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit. Credit may also be available for work experience in the field of public policy. Students must achieve a minimum 65 per cent weighted average mark in the initial component to continue to the concluding component. Students who do not achieve a minimum 65 per cent weighted average mark in the initial component will be transferred to the Graduate Diploma in Public Administration.

**Cognate disciplines:** Economic Policy, Economics, Policy Studies, Political Economy, Political Sciences, Sociology.

### Master of Public Policy in International Policy

**Full time:** 2 years  
**Semester intake:** 1 or 2  
**Program code:** NPPIP  
**Apply:** students.anu.edu.au/applications  
**Indicative annual fee:** $30,117

**Program overview:** The Master of Public Policy in International Policy provides courses in the broad area of economic policy-making, interrogating the relationships between economic analysis and democratic processes in contemporary policy-making. The main theme running through the economic policy courses is how to improve government and the conduct of public policy in the light of an understanding of the way the economy works. Although some economics background is useful, courses are typically offered in non-technical economic ideas and analysis, business-government relations in the international economy, and applied policy areas such as trade, development, environment and the economic dimensions of social policy. Are you a public policy professional looking to improve your understanding of the economy? The Master of Public Policy in Economic Policy at the world-class Crawford School will equip you with the knowledge and skills you need to succeed in the broad area of economic policy-making. Our expert teaching staff will guide you through the interactions between economic analysis and democratic processes in contemporary policy-making, with courses focusing on economic ideas and analysis, business-government relations in the international economy, and applied policy areas such as trade, development, environment and the economic dimensions of social policy. Although some economics background is useful, courses are typically non-technical.

**Admission requirements:** A Bachelor degree with at least three years’ work experience in public policy. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit. Credit may also be available for work experience in the field of public policy. Students must achieve a minimum 65 per cent weighted average mark in the initial component to continue to the concluding component. Students who do not achieve a minimum 65 per cent weighted average mark in the initial component will be transferred to the Graduate Diploma in Public Administration.

**Cognate disciplines:** Economic Policy, Economics, Policy Studies, Political Economy, Political Sciences, Sociology.
All applicants must meet the University’s English Language Admission Requirements for Students

Full details: students.anu.edu.au/programs

and practitioners at Crawford School, under the guidance of the world-class teachers, will equip you with the skills you need to design public policies that facilitate the achievement of policy objectives, and that take into consideration the political and administrative nature of the policy problem and target population. The program will also develop your understanding of policy evaluation, cost/benefit analysis, policy advocacy and evidence-based policy-making.

Admission requirements: A Bachelor degree with at least three years’ work experience in public policy. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit. Credit may also be available for work experience in the field of public policy. Students who do not achieve a minimum 65 per cent weighted average mark in the initial component to continue to the concluding component. Students who do not achieve a minimum 65 per cent weighted average mark in the initial component will be transferred to the Graduate Diploma in Public Administration.

Cognate disciplines: Economic Policy, Economics, Policy Studies, Political Economy, Political Sciences, Sociology.

Master of Public Policy in Social Policy

Full time: 2 years
Semester intake: 1 or 2
Program code: NPPPG
Apply: students.anu.edu.au/applications

Indicative annual fee: $30,117

Program overview: The Master of Public Policy in Social Policy provides students with a strong foundation for life-long professional learning. The program consists of clinical coursework, clinical field placements (1,000 hours) and a research project (12,000 words). Our contemporary training is founded on the scientist-practitioner model where clinical skills and interventions are considered on the basis of available scientific evidence and knowledge.

Admission requirements: A Bachelor degree in Psychology with Honours with an average mark of at least 70 per cent. Entry to this program is highly competitive. The minimum academic requirement for entry is an honours degree in psychology at the IFA level or better. Entry by a fourth year postgraduate diploma in psychology will also be considered. However, diplomas must (a) be of honours standard, (b) contain a substantial research methodology component, and (c) be accredited for Associate Membership of the Australian Psychological Society. Applicants can check the acceptability of their degree by contacting the Australian Psychological Society (www.psychology.org.au). Applicants with qualifications obtained outside Australia must have a formal assessment completed by the Australian Psychological Society before submitting an application for study. Additional factors considered in assessing applications are previous relevant experience, availability of supervision for research component and written application. The Clinical Committee will invite prospective students to a personal interview prior to making a final decision on admission.

Cognate discipline: Psychology.
Science Communication

■ Master of Science Communication
Full time: 2 years
Semester intake: 1 or 2
Program code: MSCOM
Apply: uac.edu.au
Indicative annual fee: A$24,782
Program overview: The Master of Science Communication is a postgraduate coursework program in Science Communication with a significant research project. Taught by some of Australia's leading science communicators, the program combines theoretical and practical aspects of science communication. The program is ideal for people interested in becoming professional science communication officers and managers, or in gaining skills in communicating their own science. Many graduates have found careers as communications officers for scientific organisations such as CSIRO, science-oriented government departments, universities and businesses.

Admission requirements: A Bachelor degree with an average mark of at least 70 per cent and at least eight courses in cognate disciplines. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit.

Cognate disciplines: Biological Sciences, Chemical Sciences, Earth Sciences, Environmental Studies, Engineering and Related Technologies, Health, Information Technology, Mathematical Sciences, Physics and Astronomy, Other Natural and Physical Sciences.

■ Master of Science Communication Outreach
Full time: 1 year
Semester Intake: 1 only
Program code: 7624/MMSCO
Apply: uac.edu.au
Indicative annual fee: A$24,782
Program overview: The ANU Master of Science Communication Outreach is an internationally well-regarded qualification unlike any other. Our education experiences are hosted at Questacon and ANU, with scientists and science communicators giving lectures and presentations based on cutting edge research in science communication. You will develop skills in public speaking; presentation and media; public relations; exhibition design and communication research; team work strategies; as well as developing expertise in presenting science and technology to students. You will have the opportunity to sample diverse careers at the interface of science and the community, including travel to remote and regional areas of Australia while staffing the Shell Questacon Science Circus.

■ Master of Social Research
Full time: 2 years
Semester intake: 1 or 2
Program code: MSRES
Apply: uac.edu.au
Indicative annual fee: A$20,815
Program overview: Meet the growing demand for expertise in high-level social research methods with a degree from one of the world’s leading centres for training in demography and social research. A Master of Social Research from the ANU Australian Demographic and Social Research Institute (ADSI) will equip you with the practical skills to conduct, commission and evaluate research in the social sciences. The program’s expert teaching staff are active practitioners who can draw upon their wealth of local and international experience, and their connections with government departments.

Career opportunities: A Master of Social Research will advance your career working in local, state and federal government departments, international government and statistical agencies, universities, consulting companies, banks, local and international aid agencies, and multilateral organisations.

Admission requirements: A Bachelor degree with an average mark of at least 65 per cent. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit.

Cognate disciplines: Anthropology, Development Studies, Economics, Geography, Law (social fields: family, migration, education, health), Marketing, Media and Communication, Political Science, Psychology, Social Policy, Sociology.

■ Master of Social Research (Advanced)
Full time: 2 years
Semester intake: 1 or 2
Program code: VSRES
Apply: uac.edu.au
Indicative annual fee: A$33,122
Program overview: Meet the growing demand for expertise in high-level social research methods with a degree from one of the world’s leading centres for training in demography and social research. A Master of Social Research from the ANU Australian Demographic and Social Research Institute (ADSI) will equip you with the practical skills to conduct, commission and evaluate research in the social sciences. The program’s expert teaching staff are active practitioners from ADSRI, the National Centre for Epidemiology and Population Health, and from across ANU, who can draw upon their wealth of local and international experience, and their connections with government departments.

Admission requirements: By transfer from the Master of Social Research, with a weighted average mark of at least 70 per cent in the first 72 units of course work attempted as well as the approval of an identified supervisor for the research project/thesis. If the total number of units attempted exceeds 72 in the same teaching period in which the 72nd unit is attempted, exactly 72 units will be used in the calculation of the weighted average mark with units from the course with the highest mark applied first followed by further units from courses in descending order of marks. Students will be awarded up to 72 units of course credit for completed courses listed in this Master (Advanced) degree.

Cognate disciplines: Anthropology, Development Studies, Economics, Geography, Law (social fields: family, migration, education, health), Marketing, Media and Communication, Political Science, Psychology, Social Policy, Sociology.

Statistics

■ Master of Statistics
Full time: 2 years
Semester intake: 1 or 2
Program code: MSRES
Apply: uac.edu.au
Indicative annual fee: A$27,283
Program overview: We offer specialisations in statistics as diverse as biology, economics, actuarial studies, psychology, physics, archaeology, medicine and information technology, there is always a need for qualified statisticians to understand and analyse the data. The Master of Statistics program enables students to specialise in any of a large number of areas, as well as receive rigorous training in core statistical application and theory. Graduates will have an excellent platform for a career as a professional statistician anywhere in the world.

Admission requirements: A Bachelor degree with an average mark of at least 65 per cent and at least one full-time equivalent year of study in the field of mathematics. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit.

Cognate disciplines: Anthropology, Development Studies, Economics, Geography, Law (social fields: family, migration, education, health), Marketing, Media and Communication, Political Science, Psychology, Social Policy, Sociology.
All applicants must meet the University's English Language Admission Requirements for Students.

Full details: students.anu.edu.au/programs
Admission requirements: A Bachelor degree with an average mark of at least 65 per cent and a successful assessment of a portfolio of works. Applicants with a Bachelor degree or Graduate Certificate in a cognate discipline may be eligible for 24 units (one semester) of credit. Applicants with a Graduate Diploma or Honours in a cognate discipline may be eligible for 48 units (one year) of credit. Entry to the Master of Digital Arts requires a successful assessment of a portfolio of works. Applicants are advised to contact the ANU School of Art to arrange for assessment as soon as possible.

Additional entry requirements Apply: uac.edu.au Entry to the Master of Digital Arts requires a successful assessment of a portfolio of works. Applicants are advised to contact the ANU School of Art to arrange for assessment as soon as possible.

Cognate disciplines: Animation, Design, Digital Art, Fine Arts, Media Arts.

Master of Digital Arts (Advanced)

Full time: 2 years  
Semester intake: 1 or 2  
Program code: VDIGA  
Apply: uac.edu.au  
Indicative annual fee: $23,638

Program overview: Focus on developing your creativity and practical skills with a degree designed for the digital age. The Master of Digital Arts offers a mixture of theory and elective courses in key areas of digital media such as digital video, 3D computer animation, digital compositing, interactivity, coding, the Internet, sound, and hybrid media. A visual effects specialisation is also available. As a digital arts student you will have access to the cutting edge facilities at the ANU School of Art.

Admission requirements: By transfer from the Master of Digital Arts, with a weighted average mark of at least 70 per cent in the first 72 units of course work attempted as well as the approval of an identified supervisor for the research project/thesis. If the total number of units attempted exceeds 72 in the same teaching period in which the 72nd unit is attempted, exactly 72 units will be used in the calculation of the weighted average mark with units from the course with the highest mark applied first followed by further units from courses in descending order of marks. Students will be awarded up to 72 units of course credit for completed courses listed in this Master (Advanced) degree.

Cognate disciplines: Animation, Design, Digital Art, Fine Arts, Media Arts.

Master of Visual Arts

Full time: 2 years  
Semester intake: 1 or 2  
Program code: MVISA  
Apply: uac.edu.au  
Indicative annual fee: $20,815

Program overview: A Master of Visual Arts is the opportunity you have dreamed of to focus on developing your skills as an artist or professional in the arts sector. Through individual studio practice, core theory, master classes, field studies, research projects, and courses across ANU, you will extend your creative, technical and analytical skills under the supervision of our expert staff. Study is available in a variety of workshops including art theory, ceramics, furniture, glass, gold and silversmithing, printmedia and drawing, painting, photography and media arts, sculpture, and textiles. As a visual arts student at ANU, you will find the nation's premier cultural institutions as well as the thriving local art scene at your doorstep.

Admission requirements: By transfer from the Master of Visual Arts, with a weighted average mark of at least 70 per cent in the first 72 units of course work attempted as well as the approval of an identified supervisor for the research project/thesis. If the total number of units attempted exceeds 72 in the same teaching period in which the 72nd unit is attempted, exactly 72 units will be used in the calculation of the weighted average mark with units from the course with the highest mark applied first followed by further units from courses in descending order of marks. Students will be awarded up to 72 units of course credit for completed courses listed in this Master (Advanced) degree.

392015 Graduate Coursework Programs
What is it?
Graduate Studies Select (GSS) is a flexible option for graduate coursework study at ANU. It recognises that graduate students often have a range of professional and personal needs that may not necessarily be met by following a program of study in a single academic discipline. Graduate Studies Select increases the flexibility and choice available to you. The program allows you to structure your studies and direct your learning in a way which meets your academic, personal and professional interests and enables you to develop skills and expertise in a range of learning areas.

What subjects can I study?
Subject to meeting course entry requirements, GSS students may select courses from across the graduate course offerings available at ANU. For example, you could construct a program of study comprising courses in art history, anthropology, museums and collections and Asian languages; or something with a more specific focus such as finance, management, maths and law. You can sample an eclectic mix of disciplines and interests, or focus your learning in a particular direction.

There are hundreds of ANU courses to choose from and an academic adviser is available to help you tailor a program to suit your individual needs.

What degree programs are available?
Students who choose Graduate Studies Select may elect to take out one of the following academic awards:

- The Graduate Certificate of Studies will be available to students who successfully complete 24 units* of graduate courses.
- The Master of Studies will be available to students who successfully complete 96 units* of graduate courses, including a maximum of 24 units from the graduate classification Transitional, a minimum of 48 units* from courses in the Advanced and/or Specialist categories and a minimum of 12 units* from courses in the Research category.
- The Master of Studies (Advanced) will be available to students who successfully complete 96 units* of graduate courses, including a maximum of 24 units from the graduate classification Transitional, a minimum of 48 units* from courses in the Advanced and/or Specialist categories and 24 units* from the completion of a thesis.

All courses available in the Graduate Studies Program have been classified as Transitional, Advanced, Specialist or Research. These classifications reflect the nature of the material covered in each course. Restrictions on the number of Transitional courses which you can study at master level are designed to ensure that you acquire a breadth and depth of knowledge and skills.

* One graduate course typically has a value of six units.

Who can I talk to?
You will find full details about Graduate Studies Select and browse the range of courses available at drss.anu.edu.au/gss

A Student Advisor and a Sub-Dean are also available to help you tailor a program of study to suit your individual needs and interest.

W drss.anu.edu.au/gss
ANU plays a leading role as a national and international policy resource and aims to engage with government through research and education excellence in public policy, which will act as a resource for the nation, Asia-Pacific region and the global policy community. The Australian National Institute of Public Policy (ANIPP) is a strategic partnership between ANU and the Australian Public Service and is located at the Crawford School. The Institute enhances public policymaking in Australia by strengthening the already substantial engagement between the public policy community and policy-relevant research expertise drawn from across all areas of ANU.

Public policy graduate coursework programs and executive education short courses are founded in research-led teaching and combined with a focus on integrating best-practice, innovative teaching methods to continually deliver a challenging and cohesive curriculum which adapts to changing demands from public policy concerns and student needs.

ANU staff lead and participate in national, regional and international public policy debate on matters of considerable public importance, with many active on government committees and in advisory roles across government, business and civil society.

The research-led approach to excellence in education equips students with a comprehensive understanding of public policy in areas where ANU has world-renowned expertise, including, but not restricted to:

- environmental and resource economics
- environmental management and development
- public health
- security and strategic studies
- law and comparative legal studies
- international and development policy.

Graduates from public policy studies at ANU are highly sought after across a range of fields for their proven abilities to stimulate debate, propose innovative policy solutions and maintain active national, regional and international networks.

### Graduate coursework programs

There are a number of College areas that offer graduate coursework programs with a public policy emphasis.

To discuss the options best suited to you, please contact:

T +61 1800 620 032
E domestic.enquiry@anu.edu.au

### Executive education short courses

(available in Canberra, Sydney, Melbourne and Adelaide)

Public Policy executive courses and Master Classes are available for those seeking professional development in policy studies in a short course/intensive format. For available courses, contact:

T 02 6125 4705
E anipp@anu.edu.au

Fees & other costs

“The Painting Workshop at the ANU School of Art is, in my opinion, one of a kind in Australia. Whilst having its feet firmly planted in the ground of tradition, it is at the forefront of practice-led research in the world. As a passionate painter, I was attracted to the artistic environment that postgraduate studies in Painting (and the wider School of Art) offered me and I have not been disappointed!”

Ella Whateley
Current PhD student (pictured here)
How much will my degree cost?

Student amenities fee
ANU is one of many universities in Australia that charge students a services and amenities fee. This provides funds for services such as student counselling, oval maintenance and enhancement of recreational facilities plus many of the sporting and cultural events held on campus throughout the year.

Please review full and up to date details on the Student Amenities Fee at students.anu.edu.au/fees/amenities-fee.php

Tuition fees
Tuition fees are charged to all students; however, the level of the fee and whether deferral or government loans are available depends on your citizenship, residency status, unit load, year of commencement and the level of the degree program enrolled in. Full details can be found at students.anu.edu.au/fees

If you are a citizen or permanent resident of Australia or a citizen of New Zealand, you are classified as a domestic student. If you do not fall into one of these categories, you are classified as an international student.

If you are an international student, you can obtain an up-to-date International Fee Schedule from students.anu.edu.au/fees/international

FEE-HELP is an Australian Government loan scheme that assists eligible fee paying Australian citizens and humanitarian visa holders. Full details, including eligibility criteria can be found at studyassist.gov.au/sites/studyassist/helppayingmyfees/fee-help/pages/fee-help-

The indicative annual tuition fees listed below are in Australian dollars and are for your guidance only, as the actual tuition fee you will pay will depend on the courses you choose and the number of units required for the successful completion of your degree program. Prices quoted are for 2015. Some graduate coursework degree programs may be available for eligible domestic students as Commonwealth supported places.

**Note:** All figures in this table are in Australian dollars. They are estimates only and may vary depending on market conditions. They are based on sharing a three bedroom house, off-campus, with two other residents, within 30 minute commuting time by public transport to the ANU campus.
How to apply

“I chose ANU (over other universities) because it is a highly ranked international university and had a research team invested in my area of interest.”

Kyle Hardman
Current PhD student (pictured here)
Am I eligible?
Admission to a graduate coursework degree will usually require a candidate to have completed a Bachelor degree with at least a credit grade average (ie 65 per cent). Some graduate coursework degrees require applicants to have a Bachelor degree or graduate certificate in a cognate discipline. These are listed in the coursework programs description section starting on page 14 or visit programsandcourses.anu.edu.au

How do I apply for admission?
Admission requirements and deadlines vary depending on the program for which you are applying and your status.

If you are citizen or permanent resident of Australia or a citizen of New Zealand, you are classified as a ‘domestic’ applicant. Domestic graduate coursework applicants usually apply for admission through the Universities Admissions Centre (UAC). However, some graduate coursework programs require domestic applicants to apply directly to the University. These exceptions are indicated in the coursework programs description section starting on page 14.

If you are not a citizen or permanent resident of Australia or a citizen of New Zealand, you are classified as an ‘international’ applicant. International applicants apply directly to ANU for all graduate coursework degree programs.

Applications through the Universities Admissions Centre (UAC)
Most domestic graduate coursework applicants will be asked to apply through UAC. Details and application procedures can be found online or by contacting:

Universities Admissions Centre
T 02 9752 0200
W uac.edu.au

Direct applications
Some domestic graduate coursework applicants apply directly to the University. If you are asked to apply directly to ANU, you can apply online at students.anu.edu.au/apply_online.asp

ANU Admissions Office
T 02 6125 5594
E admissions@anu.edu.au
W students.anu.edu.au/applications

Key dates
As a general guide, first semester applications close early January and second semester applications close 30 May, but you should check specific application details through the UAC website uac.edu.au/postgraduate/ as programs may offer extended application deadlines. Full details can be found on the ANU Admissions website students.anu.edu.au/applications

English language requirements
All applicants, whether domestic or international, must provide evidence that their English language ability meets the minimum requirements for admission. Information on English language requirements and training can be found at students.anu.edu.au/applications/english.php

How do I accept my offer?
If you receive an offer you must respond to it by accepting, deferring or declining the offer. It is important that you follow the instructions in your offer carefully to ensure that your place is reserved. If you do not accept or defer your offer, it will automatically be withdrawn after census date of the commencement semester.
There are a small number of graduate coursework degree program scholarships at ANU. They are awarded to outstanding students and are extremely competitive.

Full details on scholarships, eligibility and application deadlines can be found at students.anu.edu.au/scholarships/gc

You may need to submit a separate application for any scholarship you wish to be considered for. Please check the scholarship application details carefully.

Eligible criteria: Academic merit and equity

Ken Wanganeen Scholarship
Value: Determined annually
Selection basis: Academic merit and leadership skills
Eligible criteria: An Indigenous Australian; enrolled in or will be enrolled in a graduate coursework program at the University; or enrolled in or will be enrolled in the Australian National Internships Program.
What will my life be like at ANU?

“What I like most about my student experience so far is the opportunity to work with leading researchers, on a fascinating project, with the best equipment.”

Jennifer Robertson
Current MChD/PhD student (pictured here)
GETTING STARTED

To help you get started, we will send you details like your student number and how to log into the University web facilities. You might also like to take our virtual tour – anu.edu.au/about/tour

Getting to Canberra

Transport to Canberra from Sydney is available by rail or bus. The CountryLink train trip takes 4.5 hours from Central Station. Toilets and a buffet service are available on the train.

Bus travel to Canberra takes three hours and is offered by Murrays Bus Service which picks up directly from the International and Domestic terminals at Sydney airport. Toilets are available on the bus. The service delivers passengers to the Jolimont Centre in Canberra city within a short walk from ANU.

CountryLink timetable information: nswtrainlink.info
Murrays Bus timetable information: murrays.com.au

Getting to the city

If you are arriving by aeroplane to Canberra airport you can get transport to the city by taxi or on a bus.

The Airport Express shuttle bus offers airport-city-airport services daily during peak periods (approximately 6am-7pm on weekdays and 7am-6pm on weekends). The cost is $12 one way per adult. Children do not require a restraint in these buses. Tickets can be purchased from the car park customer service office located opposite the bus stop or can be pre-booked online or by calling 1300 368 897. The bus stop is located kerbside upon exiting the arrivals hall.

Royale Coach: royalecoach.com.au

Taxis are available from the taxi stand at the airport but are considerably more expensive with a trip to the city costing approximately $50.

Accommodation on your first night

Right in the centre of Canberra is the Canberra YHA at 7 Akuna St, Canberra +61 2 6248 9155. This Canberra Backpackers Hostel features a cafe, indoor pool/spa/sauna, internet access, fully-equipped kitchen, rooftop BBQ area, TV/games area, and underground bar. The hostel hosts weekly activities and BBQs in summer. To book a family room rate, there must be at least one child under 18 and 1-2 adults.

Limited on-campus accommodation

In recent years there has been an unprecedented demand for on-campus accommodation at ANU. Graduate students are able to apply for on-campus accommodation, we strongly advise you to investigate off-campus accommodation options in a rental property or share accommodation. Housing Online may assist you in identifying properties for rent in Canberra. This is a free service offered by Residential and Campus Communities rcc.anu.edu.au

Food

There are many places to eat in Canberra city – particularly near the Canberra Centre. If you are prepared to travel up Northbourne Avenue, the suburb of Dickson is Canberra’s ‘Chinatown’ offering many food options at a range of price points.

Most suburbs in Canberra have a local set of shops including a grocery shop and other services. The closest grocery shop to the ANU campus is the City West Spar at City West Carpark 113 Marcus Clarke Street, Canberra City Phone +61 2 6262 6661.
Life for ANU students isn’t all about study. ANU thrives on balance and Canberra provides plenty of opportunities to get out, get active and get social. No matter where you are, there’s something to do. Here’s a start.

Life on campus

Union Court is the hub of University life, with a selection of eateries, cafes, specialty shops and services. There is even a cycle repair shop (very important in Canberra). The Co-Op Bookshop is open every day of the week. Union Court is also home to campus events. Every Thursday is Market Day on campus, where you can buy everything from cheap books to funky clothes and enjoy the live music in the outdoor amphitheatre. And O-Week and Bush Week celebrations are centred around this area.

Union Court is also home to the ANU Bar which opens out onto a deck overlooking the waterway running through campus. The ANU Bar is renowned for its rich live music history, having hosted some of the biggest names in music for over 30 years. The huge concert space can certainly support a crowd.

The ANU Sport and Recreation association run lunchtime sporting competitions, including indoor soccer, touch football, ultimate disc, volleyball and basketball. There are also a number of galleries on campus, including the School of Art Gallery and the Drill Hall Gallery. The campus is a great place to explore with many walking tracks, sports grounds and open space. Lake Burley Griffin is close by, and there are plenty of paths to take you there.

For more information go to anuunion.com.au and anu-sport.com.au

PARSA

The Postgraduate and Research Students’ Association (PARSA) is run by student representatives and paid staff to represent the diverse interests of postgraduate and research student community at ANU. PARSA runs a full timetable of activities and opportunities to mix and share experiences with other postgraduate students.

For more information go to parsa.anu.edu.au

Disability Services Centre

The Disability Services Centre supports students with a disability to participate in their program of study by assessing the need for and approving a range of adjustments that minimise the impact of a disability in the University environment.

For more information go to disability.anu.edu.au

Counselling Centre

The University Counselling Centre provides free, confidential professional services to students dealing with a range of personal and academic difficulties which may affect academic study. We also have a range of group programs and seminars for the year and an extensive online handout via our webpage. Urgent appointments are available every day based on a first come first served basis and our usual appointments can be made by phone or in person.

For more information go to counselling.anu.edu.au

Graduate lounge

The Graduate Lounge is located in the Fellows Café and Bar in the basement of University House on campus. It is a social and meeting space for ANU graduate students offering a great space to meet friends, make new friends, study or simply relax. Throughout the year, Graduate Lounge hosts a variety of events for graduate students. These provide great opportunities for students to meet others across all disciplines, whether social events, or discussions on various graduate study or research related topics. All events provide opportunities to compare notes and air any concerns in a confidential environment. Graduate Lounge offers Wi-Fi and a selection of magazines and various board games are available within Graduate Lounge for student use.

For more information go to researchstudents.anu.edu.au/lounge
**Health Service**

The University Health Service offers primary health care for students and staff. You will need to make an appointment, with most appointments lasting 10 minutes. When attending an appointment you will need to bring your student card.

**University security**

Because we have an open, spacious campus of 145 hectares, your personal security is important. The UniSafe program aims to provide peace of mind to students and staff who use the campus, any time of day or night. UniSafe escorts can walk you to your car or another building on campus. Or you can catch the Safety Bus, which operates on a nightly schedule and can drop you anywhere on campus. If you want to report anything suspicious, emergency phones located around the campus will put you in direct contact with security staff.

For more information go to facilities.anu.edu.au/services/anu-security/initiatives

**Childcare**

There are four childcare centres on campus serving ANU students and staff. Long waiting lists exist in all centres, so contact them well in advance of your arrival on campus.

There are also two parenting rooms on campus to attend to specific needs of nursing parents and their children.

For more information go to about.anu.edu.au/campus/children

**Careers Centre**

ANU offers many services relating to planning and starting a career at the Careers Centre. Drop in for a 15 minute consultation about your career questions, use the CareerHub online vacancy and career information system to look for employment or just check out our website: careers.anu.edu.au

**Life off campus**

**Out and about**

There are plenty of outstanding restaurants and cafes around campus and in the city. If you are a night owl, you could check out the music at one of Canberra’s many nightclubs, or catch a movie at one of the nearby cinemas.

As the national capital, Canberra is home to some quality international galleries and museums, with new exhibitions opening throughout the year. Some institutions have special entry and membership deals for students.

**The cycling capital**

Canberra is a two-wheeled city with a superb and safe network of on- and off-road cycle paths. Around 40 per cent of Canberrans regularly ride to work, university or school and for general recreation. Facilities for cyclists include:

> over 250 kilometres of off-road, purpose built cycle paths — equivalent to around 10 per cent of the road system
> on-road cycling lanes on major thoroughfares
> bike paths which pass through many nature parks and reserves
> weather-proof and secure bike lockers for hire at bus interchanges
> free on-board bike racks on main bus routes.

Many ANU students find that cycling is a cheap and environmentally friendly way of getting around the campus and the city. There are a number of student groups which organise group rides, both on- and off-road, include mountain-biking treks. There are also many locations on the ANU campus to leave your bike, including security-coded covered bike sheds.

**Beyond Canberra**

For the more adventurous, the Canberra region is an outdoor haven with everything from white-water rafting, abseiling and mountain-bike riding to snow skiing, canoeing and horse riding. If you prefer bright city lights, Canberra is only a few hours from Australia’s biggest city, Sydney.
Canberra is a relatively young planned capital city within the Australian Capital Territory (ACT). Offering a vibrant, cosmopolitan lifestyle, Canberra has a high concentration of national museums and galleries, as well as cafes and restaurants. The Canberra region is home to many boutique wineries producing award-winning cold climate wines.

Canberra was designed by Chicago architects Walter Burley Griffin and Marion Mahony Griffin, and 2013 celebrated the centenary since construction began. The centre of the design is the lake bearing Walter Burley Griffin’s name. Possibly the best way to see the inspiring design of the city is by air, in a hot air balloon – an iconic aspect of Canberra.

Canberra’s design sits within and embraces the landscape. Surrounded by nature reserves and festooned with many parklands, the city has earned the moniker the ‘bush capital’. The city is designed to encourage outdoor active lifestyle and all suburbs enjoy excellent scenic walking and cycle tracks. The National Botanical Gardens are located close to the city, and the National Arboretum opened in 2013, an ambitious planting project of 100 trees each of 100 species.

Events

It is rare for a weekend to pass without several events held in Canberra. This is a snapshot of some of the events held throughout the year:

- The Street Machine Summernats – January
- Enlighten Festival – March
- Canberra Balloon Spectacular – March
- Groovin the Moo – April
- Mont 24 Hour Mountain Bike Race – April
- National Folk Festival – April
- Australian Running Festival – April
- Heritage Festival – April
- Canberra International Music Festival – May
- Skate in the Park – June/July
- The Canberra and capital region Truffle Festival – June/August
- Fireside Festival – August
- Floriade – September
- Country Music Festival – November
- Wine Roses and all that Jazz – November
- Foreshore Summer Music Festival – November
- Canberra Cup horse racing carnival – November
- Corinbank music and arts festival – November/December

In the region

Beyond the city of Canberra, the Namadgi National Park includes many tracks and lookouts and includes the Tidbinbilla Nature Reserve with a range of opportunities to be amongst abundant Australian wildlife. South of Canberra is the beautiful Kosciuszko National Park where the spectacular high country scenery can be enjoyed through bushwalking and camping in summer, and offers snowsports in winter. The New South Wales south coast is only two hours east of Canberra, and is famous for its white sandy beaches, clear water and friendly kangaroos.

Cultural

Canberra is home to many national institutions, including the Australian War Memorial, Questacon – the National Science and Technology Centre. Several of these are located in the Parliamentary Triangle near Parliament House (see map).

There is a vibrant artistic community in Canberra. One place to see artists at work is the Canberra Glassworks – a good place to go on cold winter days! Every weekend there are a variety of markets held across the city, the most famous including the Farmers market offering locally grown produce, the Bus Depot Markets and the monthly Handmade Markets.

The Canberra Theatre Centre has a regular program of high quality national and international performances. Several other performance venues across the city provide a wide range of theatre, music and dance experiences.

The National Gallery of Australia regularly hosts blockbuster exhibitions in addition to its extensive permanent collection, and the National Portrait Gallery is one of the newest additions to the cultural landscape in the city.

Sports lovers

The community of Canberra enjoys both participating in and watching sport. Excellent public facilities in Canberra encourage an active lifestyle. The Mount Stromlo Park was redeveloped after the large bushfires of 2003 into a public facility for mountain bike riding, equestrian and running activities. There are many public sporting events taking advantage of Canberra’s pleasant climate.

For those interested in watching sport there are many world-class facilities including the Canberra Stadium, a facility primarily used for rugby league and rugby union games. Cricket and Australian Football League is played at the historic Manuka Oval. For something a little different, the Canberra Roller Derby league has a huge following in Canberra. And while the Australian Institute of Sport is developing elite sport in Australia, it also hosts events like the National DanceSports Championships.
CANBERRA CITY

Parliament House
Lake Burley Griffin
High Court of Australia
National Gallery of Australia
National Library of Australia

58 what will my life be like at ANU?
Canberra’s altitude of 570 metres means it has a cooler climate than much of the country, marked by blue skies and sunshine. It is one of the few locations in Australia which enjoys four distinct seasons. Spring and autumn in Canberra are glorious and the substantial street plantings provide a colourful reflection of the different seasons.

The graphic indicates the average temperatures during the year. While summer can be punctuated with very warm days, temperatures drop considerably overnight meaning it is cool enough to sleep comfortably at night even during these times.

Similarly in winter the temperatures can drop well below the average. Canberra’s location on the Great Dividing Range means it is in close proximity to the only range of mountains in the country high enough to receive sufficient snowfall for skiing.

36 days with temps over 30°C in summer of 2012-2013*

20 nights below -4°C in winter of 2012*
