Choosing your Electives in first year of the Bachelor of Advanced Computing (Honours):

1. Possible Electives if pursuing a major/minor in computing (or relevant Engineering areas):

- **Computer Engineering Major, or Electronics and Communications Minor, or Mechatronics Minor:**
  
  Move STAT 1003 from Semester 1 to 2\textsuperscript{nd} year and do:
  Semester 1: PHYS1101 or PHYS1001 (if you haven’t done a major in Year 12)
  Semester 2: ENGN1218, University Elective

- **Human-Centric Computing Major or IT in New Media Minor:**
  
  Move STAT 1003 from Semester 1 to 2\textsuperscript{nd} year and do
  Semester 1: COMP1710 (required for IT in New Media) or PSYCH1003
  Semester 2: COMP1720 plus University Elective

- **Information Systems Major:**
  
  Semester 1: STAT1003
  Semester 2: INFS1001 plus University Elective

- **Information-Intensive Computing Major:**
  
  Move STAT 1003 to 2\textsuperscript{nd} year and do:
  Semester 1: BIOL1003
  Semester 2: Two university electives

- **Intelligent Systems Major:**
  
  Move STAT 1003 to 2\textsuperscript{nd} year and do:
  Semester 1: PSYC1003
  Semester 2: Two university electives

Other computing majors or minors require no specific courses selections in first year so you can refer to the notes below.

2. Electives if you are not planning on pursuing a computing/engineering major, or still have university electives to choose from

- Explore the options of a major/minor in another College or do some course that have been popular with past students. These include:
  
  COMP 1710, COMP1720, COMP2400 (this is a first year course), INFS1001, PSYC1003, MATH1003 (see note about Maths)
